# BoLINK

BoLINK R/C CARS, INC. was founded in 1970 by Bob and Kathy Rule. This quality-oriented company has one simple motto in mind when they design new products - 'Complex Enough to Perform - Simple Enough To Enjoy'.

Located just a few miles northeast of Atlanta, Georgia, they have almost 13,000 square feet of manufacturing and storage space on 2½ acres of property. Also located right next to the factory is beautiful BoLINK Raceway Park, a super fast "Georgia Red Clay" Dirt Oval - complete with lights, large driver stand and bleachers. It's a gathering spot every Friday night, from March thru October, for the "serious", as well as, the "would-be" racer. Everyone is welcome! Most of BoLINK Round Tracker/Invader products began life right at BoLINK Raceway Park.

Radio control cars are the rage of the U.S. and the hottest hobby product going. We are well aware of the importance of replacement parts and accessories. You will never see a car released by BoLINK without replacement parts being available.

We hope you enjoy our latest catalog - WELCOME TO THE QUALITY WORLD OF BoLINK!

**BOLINK** "we're here to serve you, the customer"

## meet bob rule

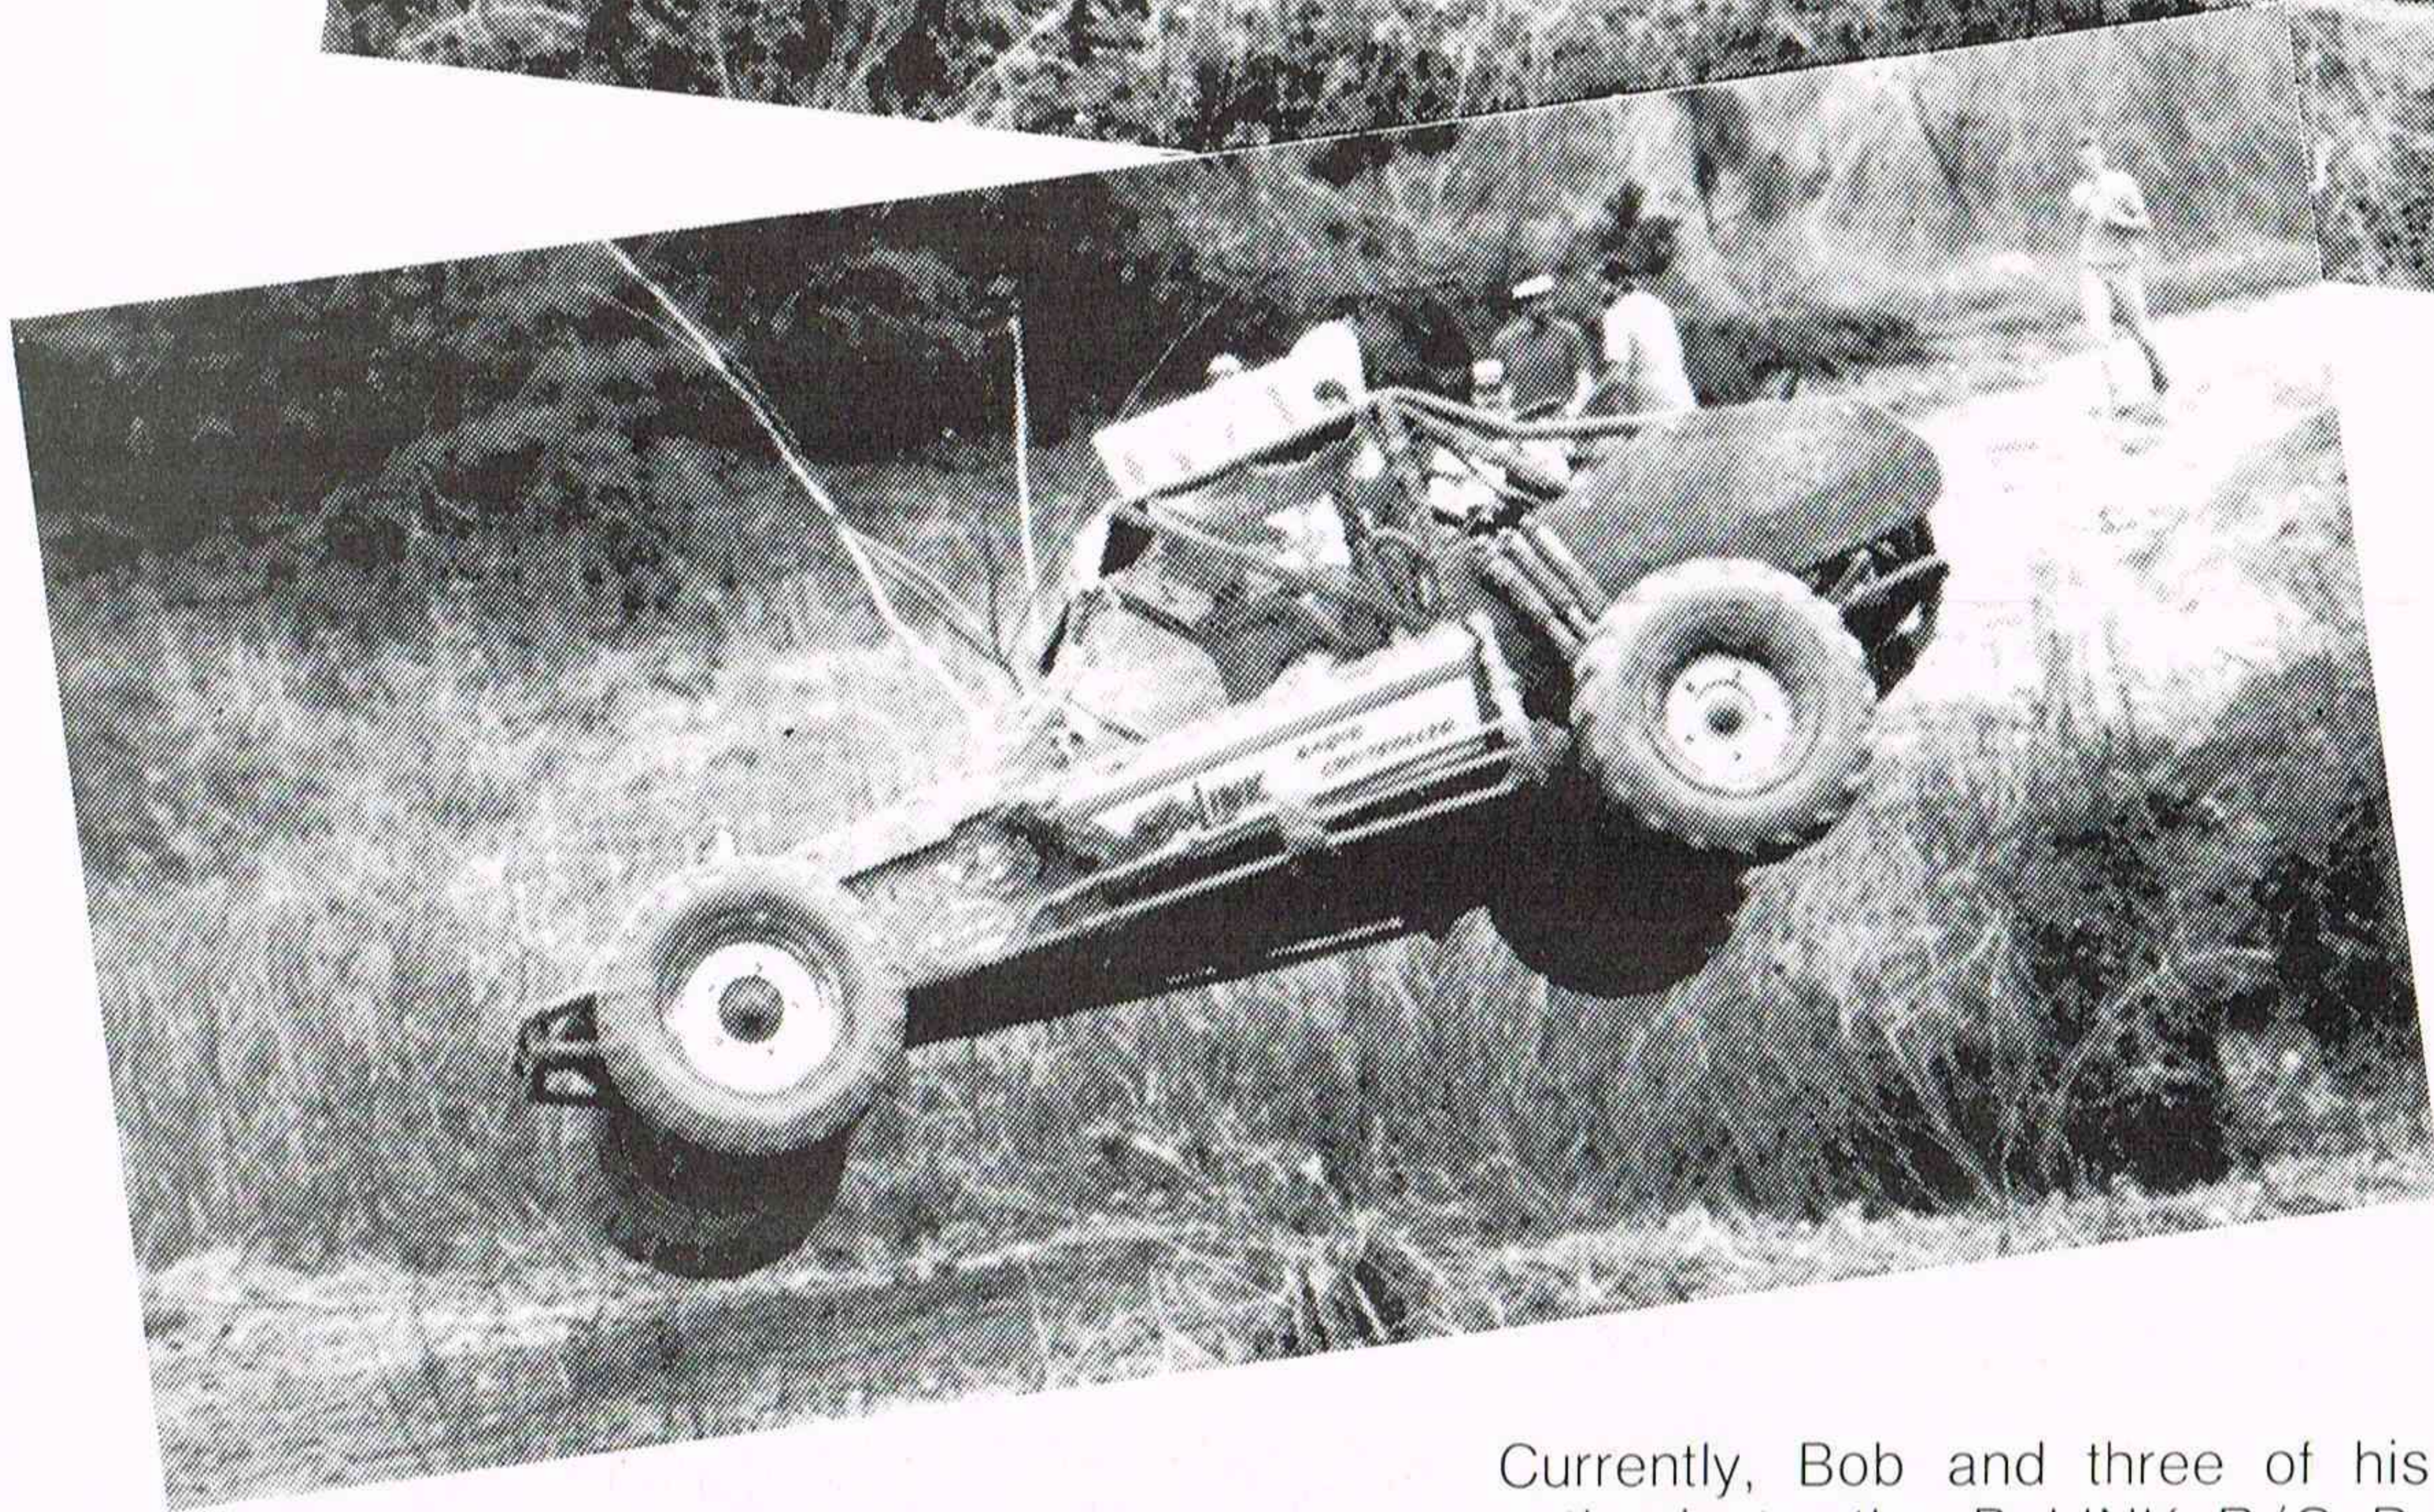

As owner of BoLINK R/C Cars, Inc., Bob Rule has been involved in scale auto racing since 1970. But, what few people know is that Bob has been involved in full-scale auto racing for almost as long. As a matter of fact, in 1974, Bob co-founded G.O.R.R.A. (Georgia Off-Road Racing Association) to help promote interest and activity in off-road racing in the South. During 1982, 1983 and 1984, he participated in D/Class Chargers. However, in 1985, due to a combination of health and business pressures, Bob felt he didn't have sufficient time to devote to racing and decided to retire - and re-enforced this decision by selling his beloved racing car. In less than a year, the lure of the sport got him back in a new car and on the track, racing again!

His decision to return to racing paid off with his winning his first two races and finishing the year with a 250 mile, 6½ hour race, 2nd in class and 2nd overall.

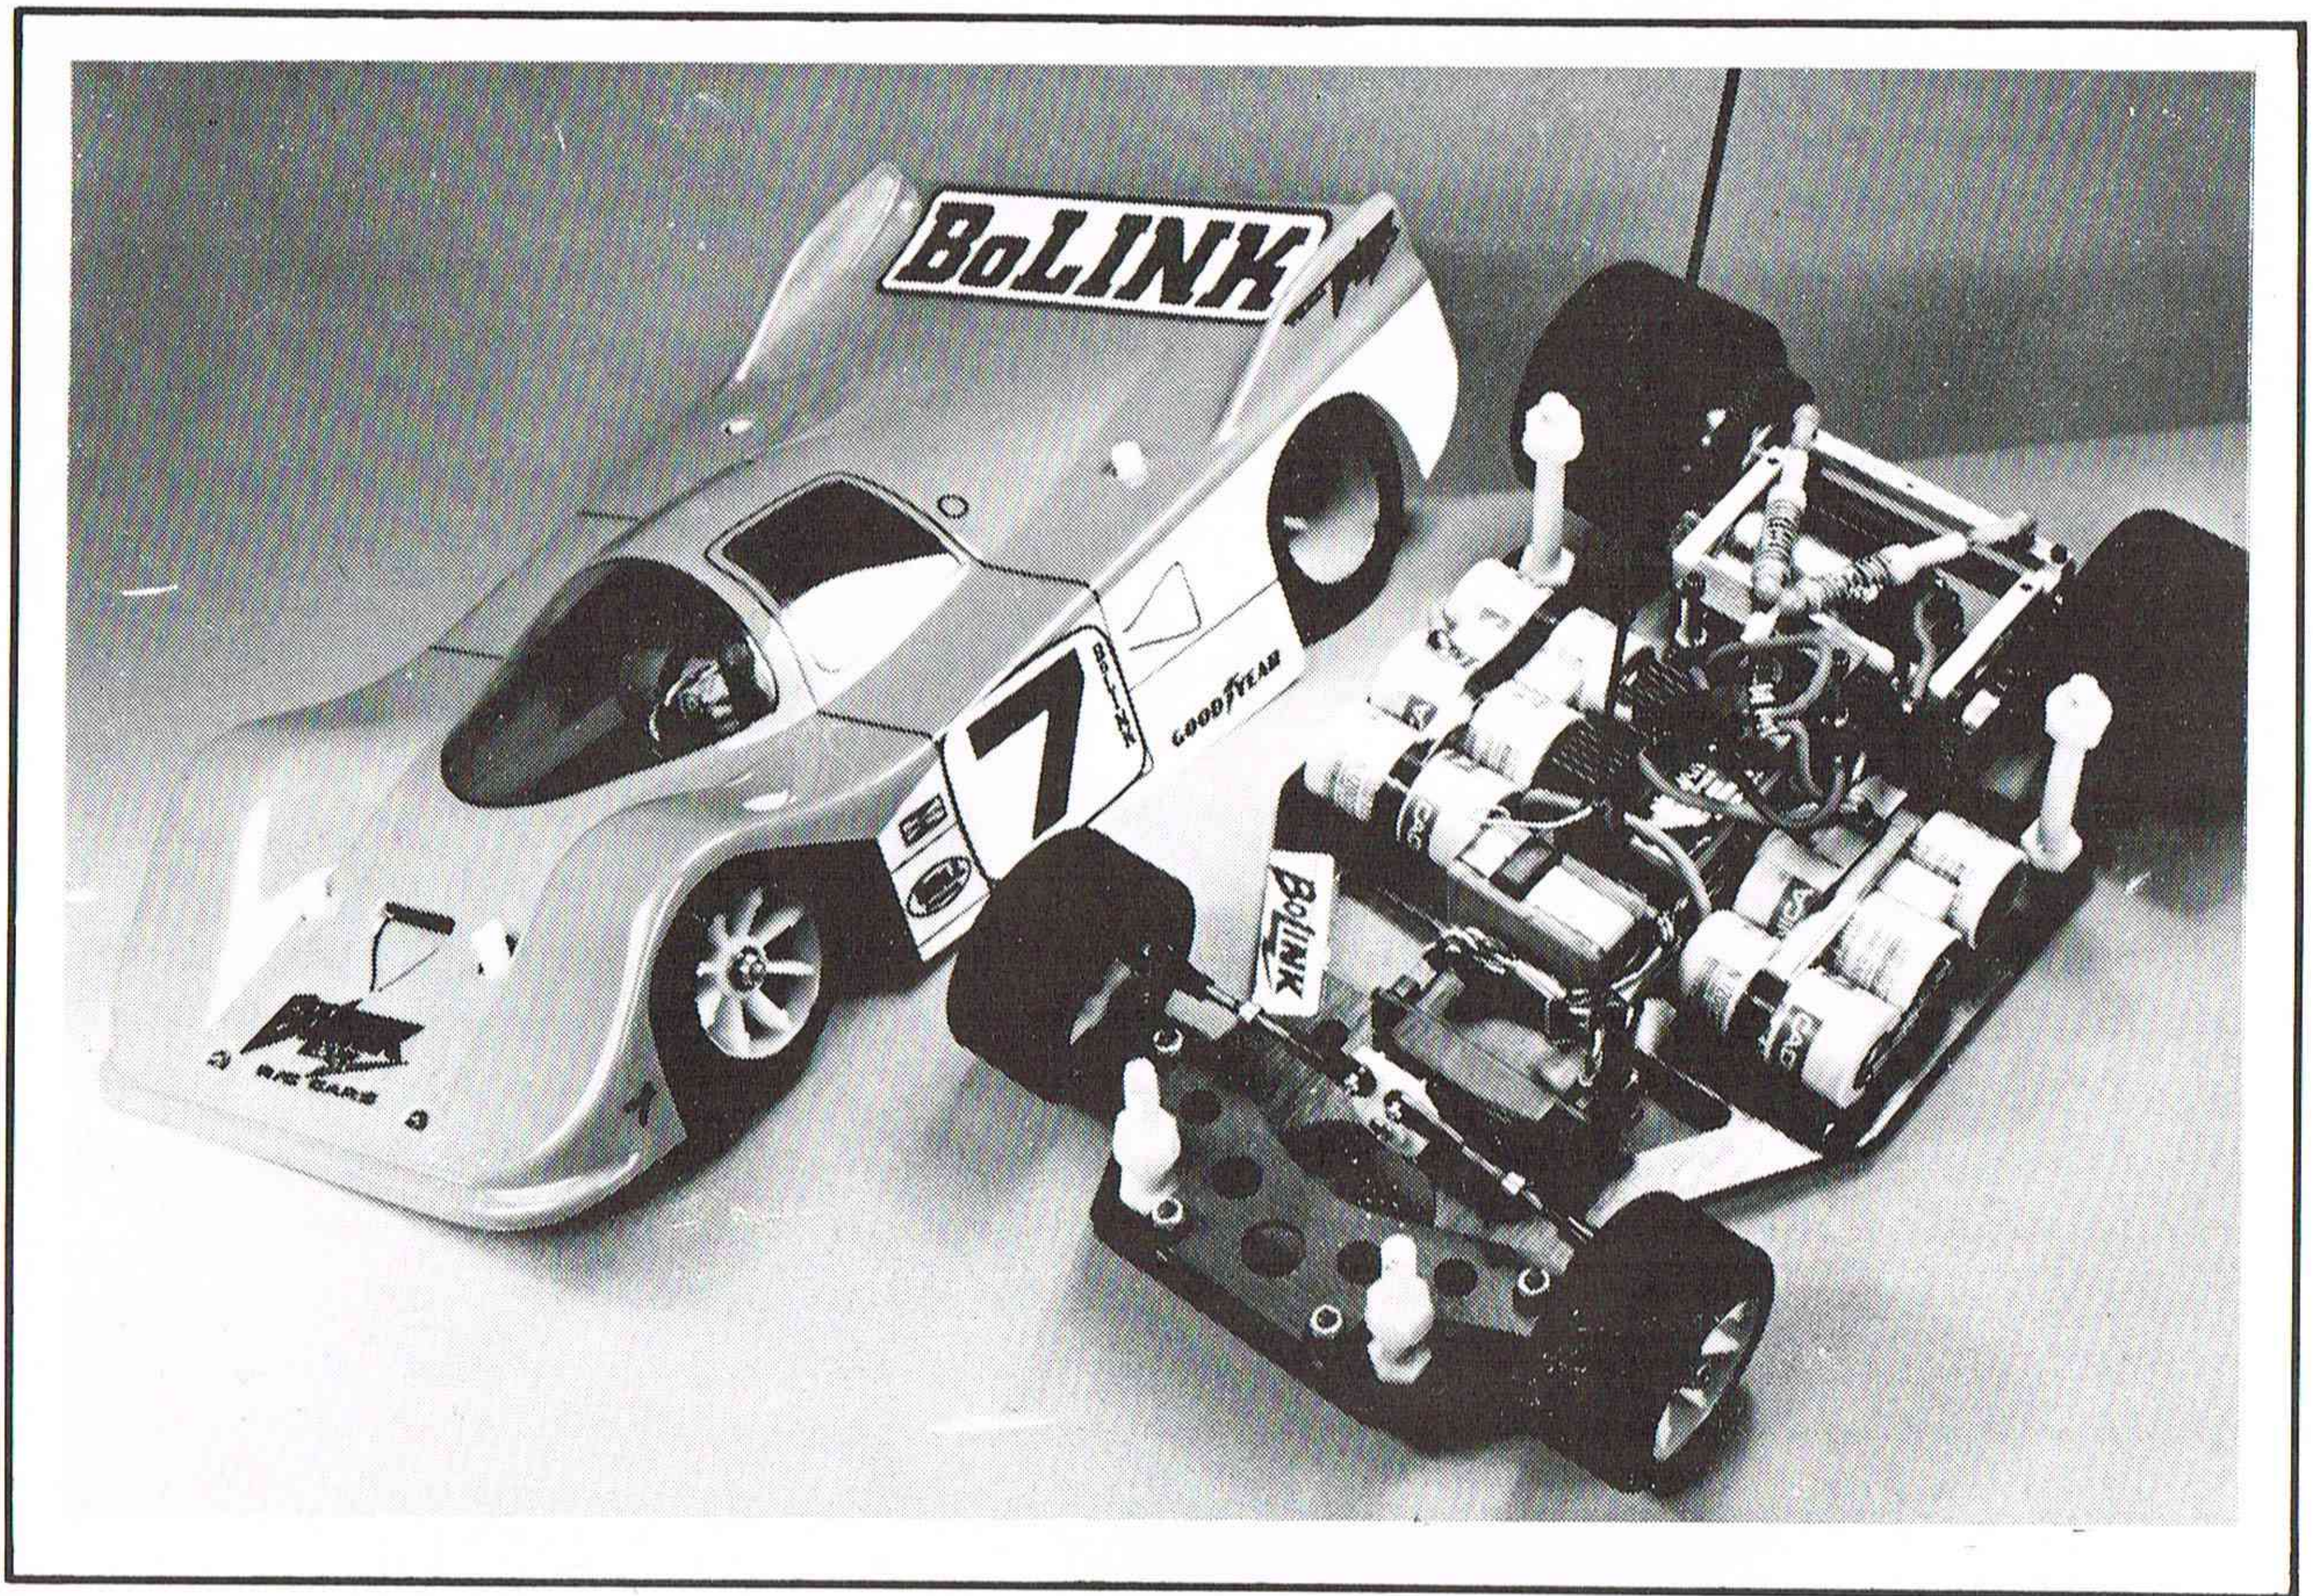

In his first race of 1987, the "Florida 400", he led the race for 5¾ hours, had a two lap lead with four laps to go, when he developed a fuel problem and finished the race 2nd in class, 3rd overall.

**BoLINK**

Currently, Bob and three of his fellow racing enthusiasts, the BoLINK R/C Desert Off-Road Racing Team, are making plans to participate in the "Mint 400" in Las Vegas, NV. *Go for it, Bob!!*

**BoLINK**

# Tired of your Big Bear Monster Truck looking like all the rest?

**BoLINK has several bodies and other accessories that can be used to customize and improve yours.**

- BL 2079\* Chevy Luv Pick-up
- BL 2079P Chevy Pick-up Painted
- BL 2067\* Ford Courier Pick-up
- BL 2067P Ford Pick-up Painted
- BL 2059 Ford Custom Van
- BL 2059P Ford Van Painted
- BL 5278 Universal Body Mount Kit  
for Big Bear

\* These two fit exactly as original body with no modifications.

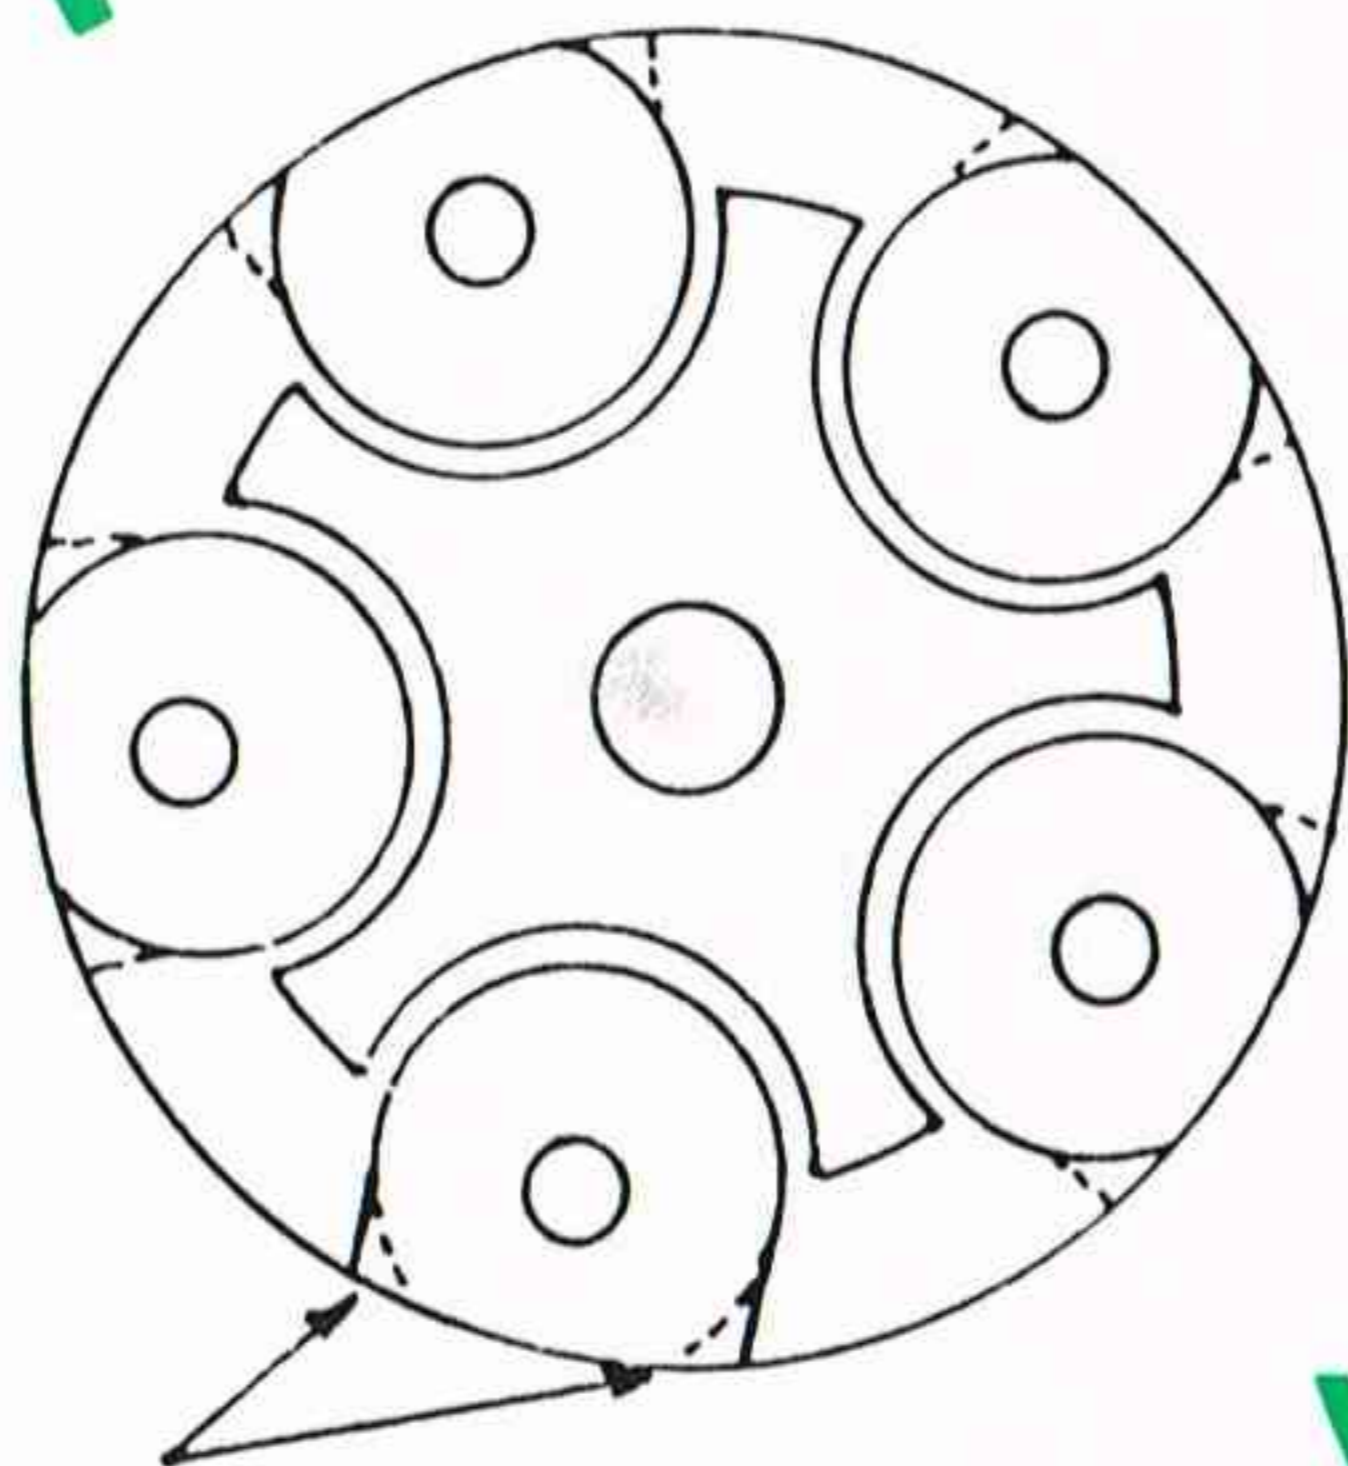

**BoLINK also has other 1/12 bodies that can be used on the Big Bear.**

**BoLINK**

# Monogram Lightning

Please note small modification shown below that consumers can make to the rear wheel hub that will allow the use of the BoLink 1/10 scale tires listed below on this car — the modification will not affect the fit of the original wheels.

**MONOGRAM  
LIGHTNING**

**WHEEL  
HUB**

Use a sharp hobby knife to trim corners off hub as shown. This will allow the use of all BoLink rear tires listed below on this car — these are the same ones that you stock to fit Tamiya cars. This also will not affect the fit of the original rear wheels. All BoLink 1/10 fronts can be used — order tires wanted plus BL-5458 front bushings.

## 5286/87

BL-5286

ADJUST-A-LINK 4-40 threaded tie rods. This tie rod has left and right threads so it can be installed and adjusted like a turnbuckle. Don't wear out your ball joints taking them off to adjust your linkage. Long enough to fit most applications - can be cut for shorter links. A must for every 1/10th and 1/12th scale R/C Car. Made from hardened stainless steel. Available for \$5.00.

BL-5287

ADJUST-A-LINK KIT. Same as BL-5286 with high quality ball joint ends and hardware. Available for \$8.00.

NEW  
PRODUCTS

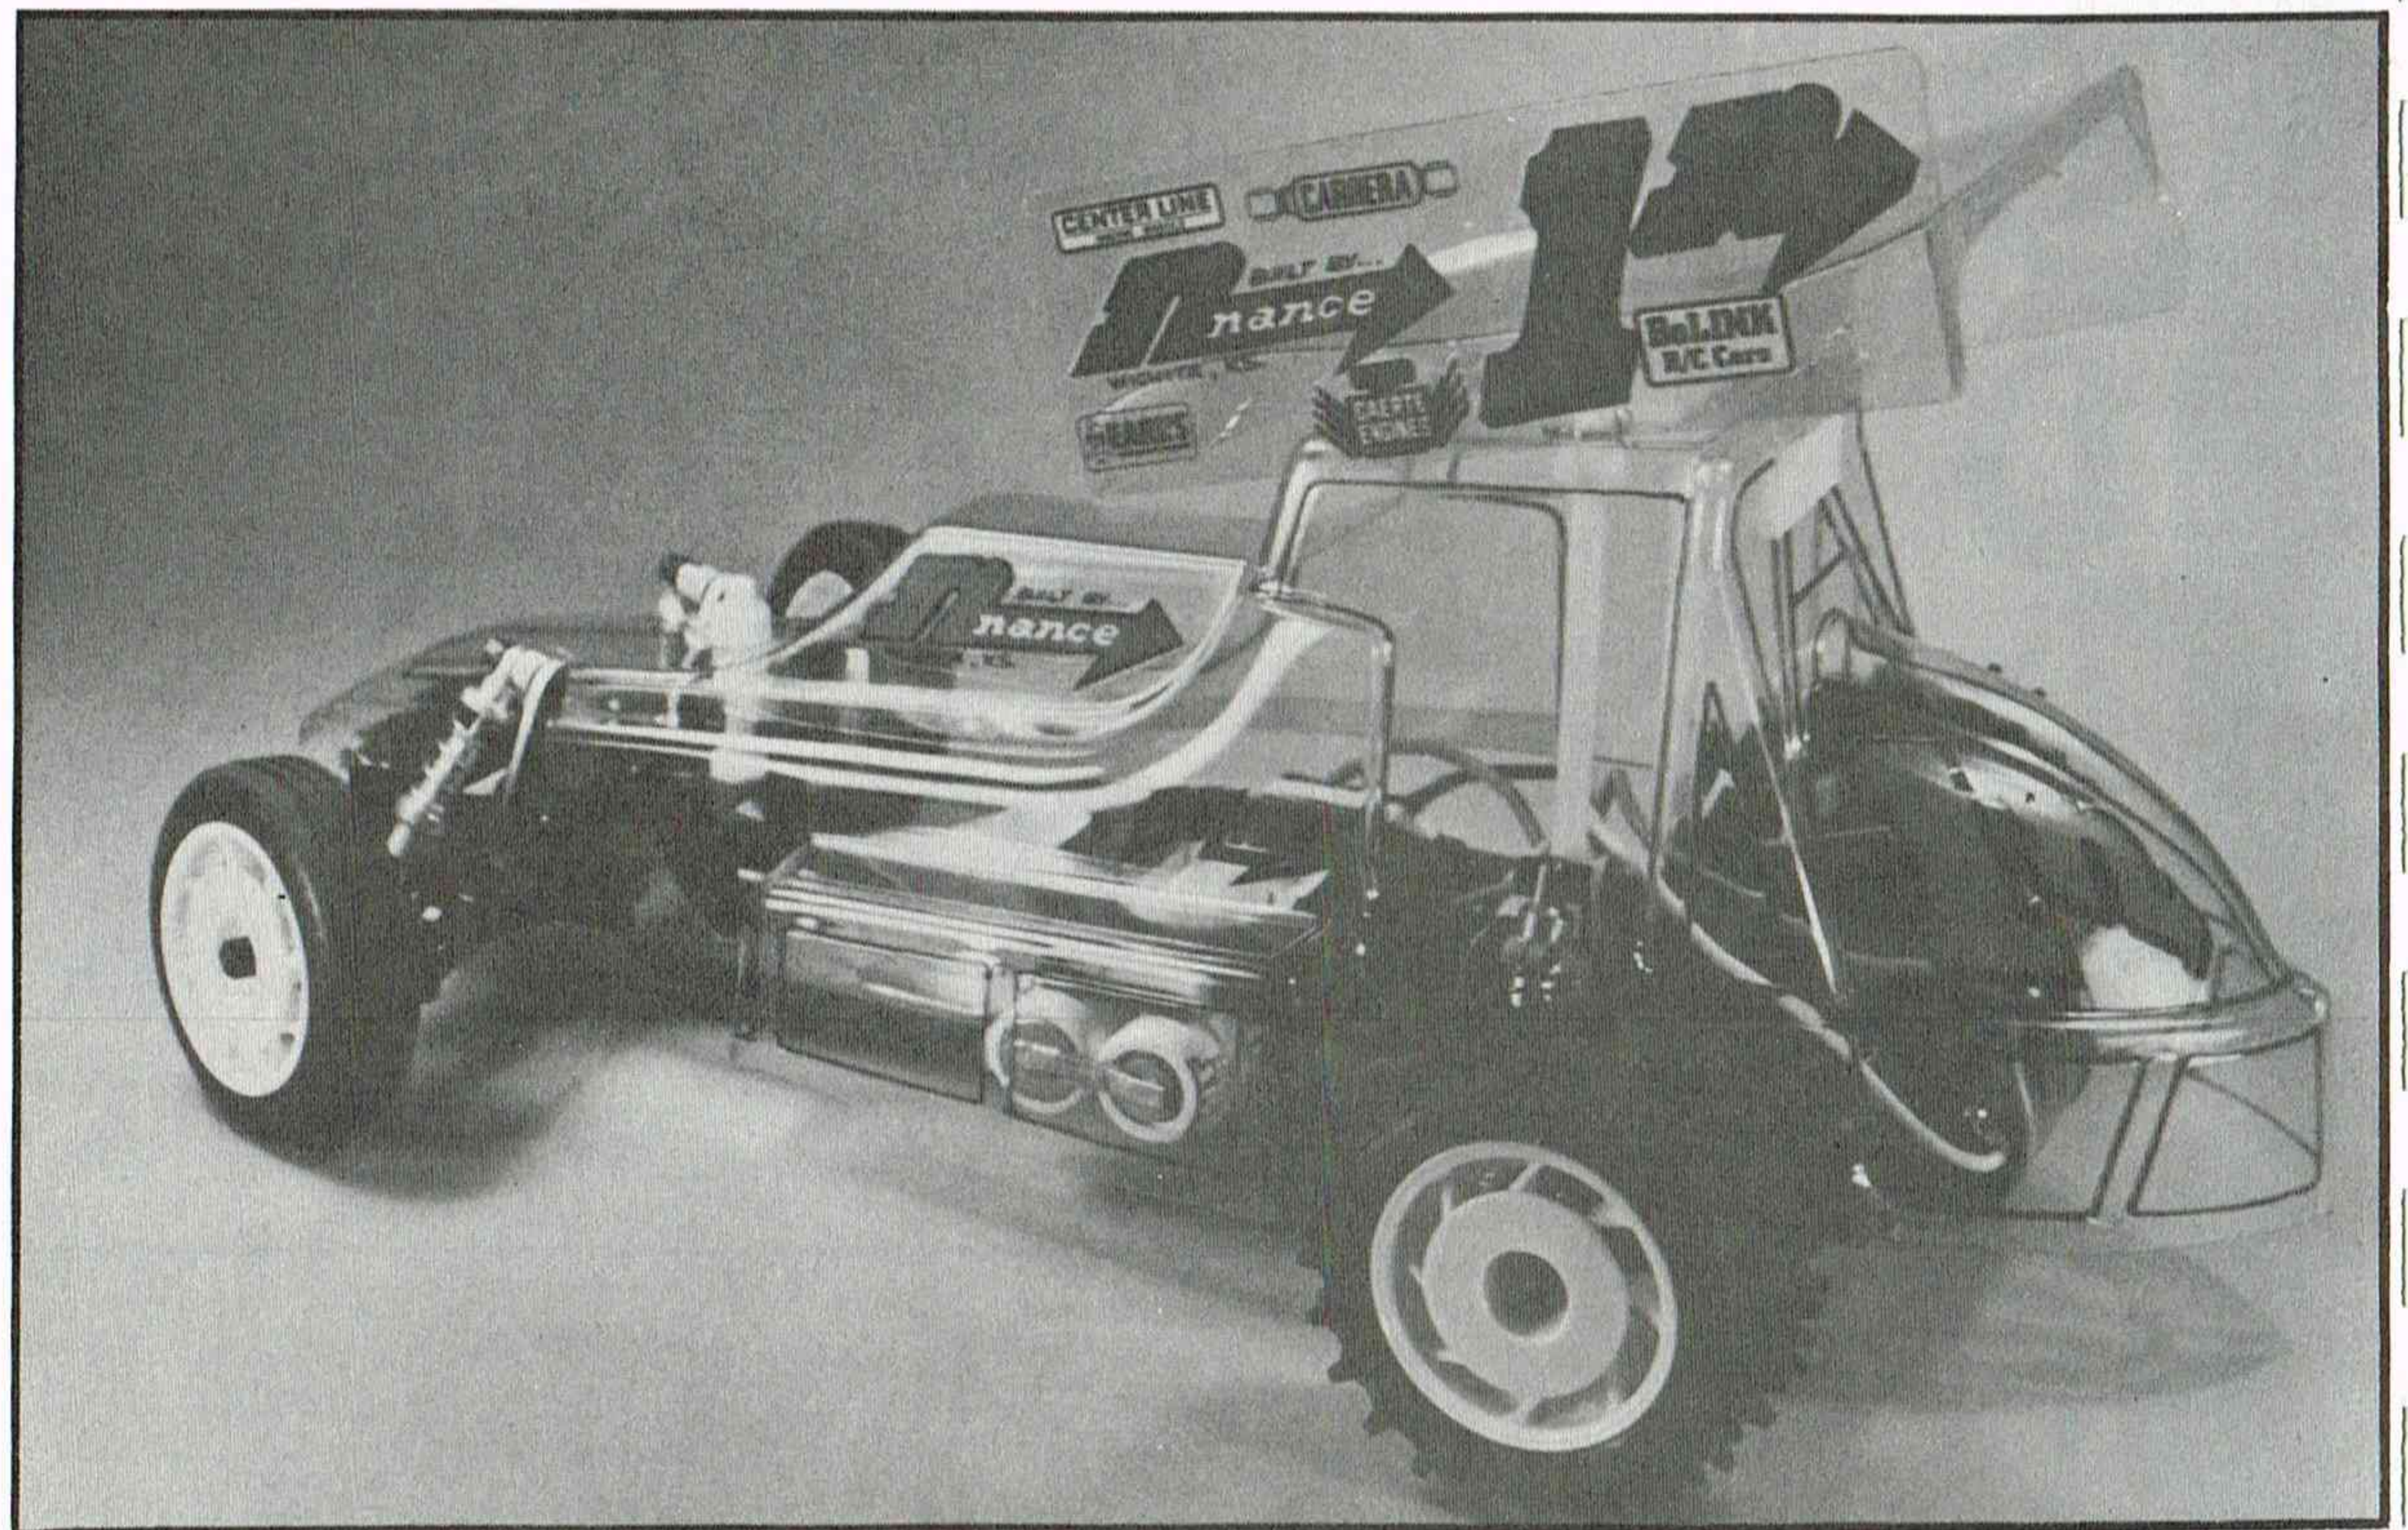

## ULTIMA SPRINT CAR KIT

BL-5282

Price: \$38.95

Make your Ultima off road car into a killer oval racer with BoLINK's Ultima Sprint Car Kit. The kit includes 2 shocks, BoLINK's sprint car body with wing, mounts, decal sheet and all necessary hardware to lower the chassis for superior handling on oval tracks.

Complete information on all BoLINK's products are available by sending \$3.00 for our latest catalog and price sheet and a FREE "He Who Dies With The Most Toys Wins" bumper sticker. Write to BoLINK R/C Cars, Inc., 420 Hosea Road, Lawrenceville, GA 30245.

# ELIMINATOR BY BOLINK

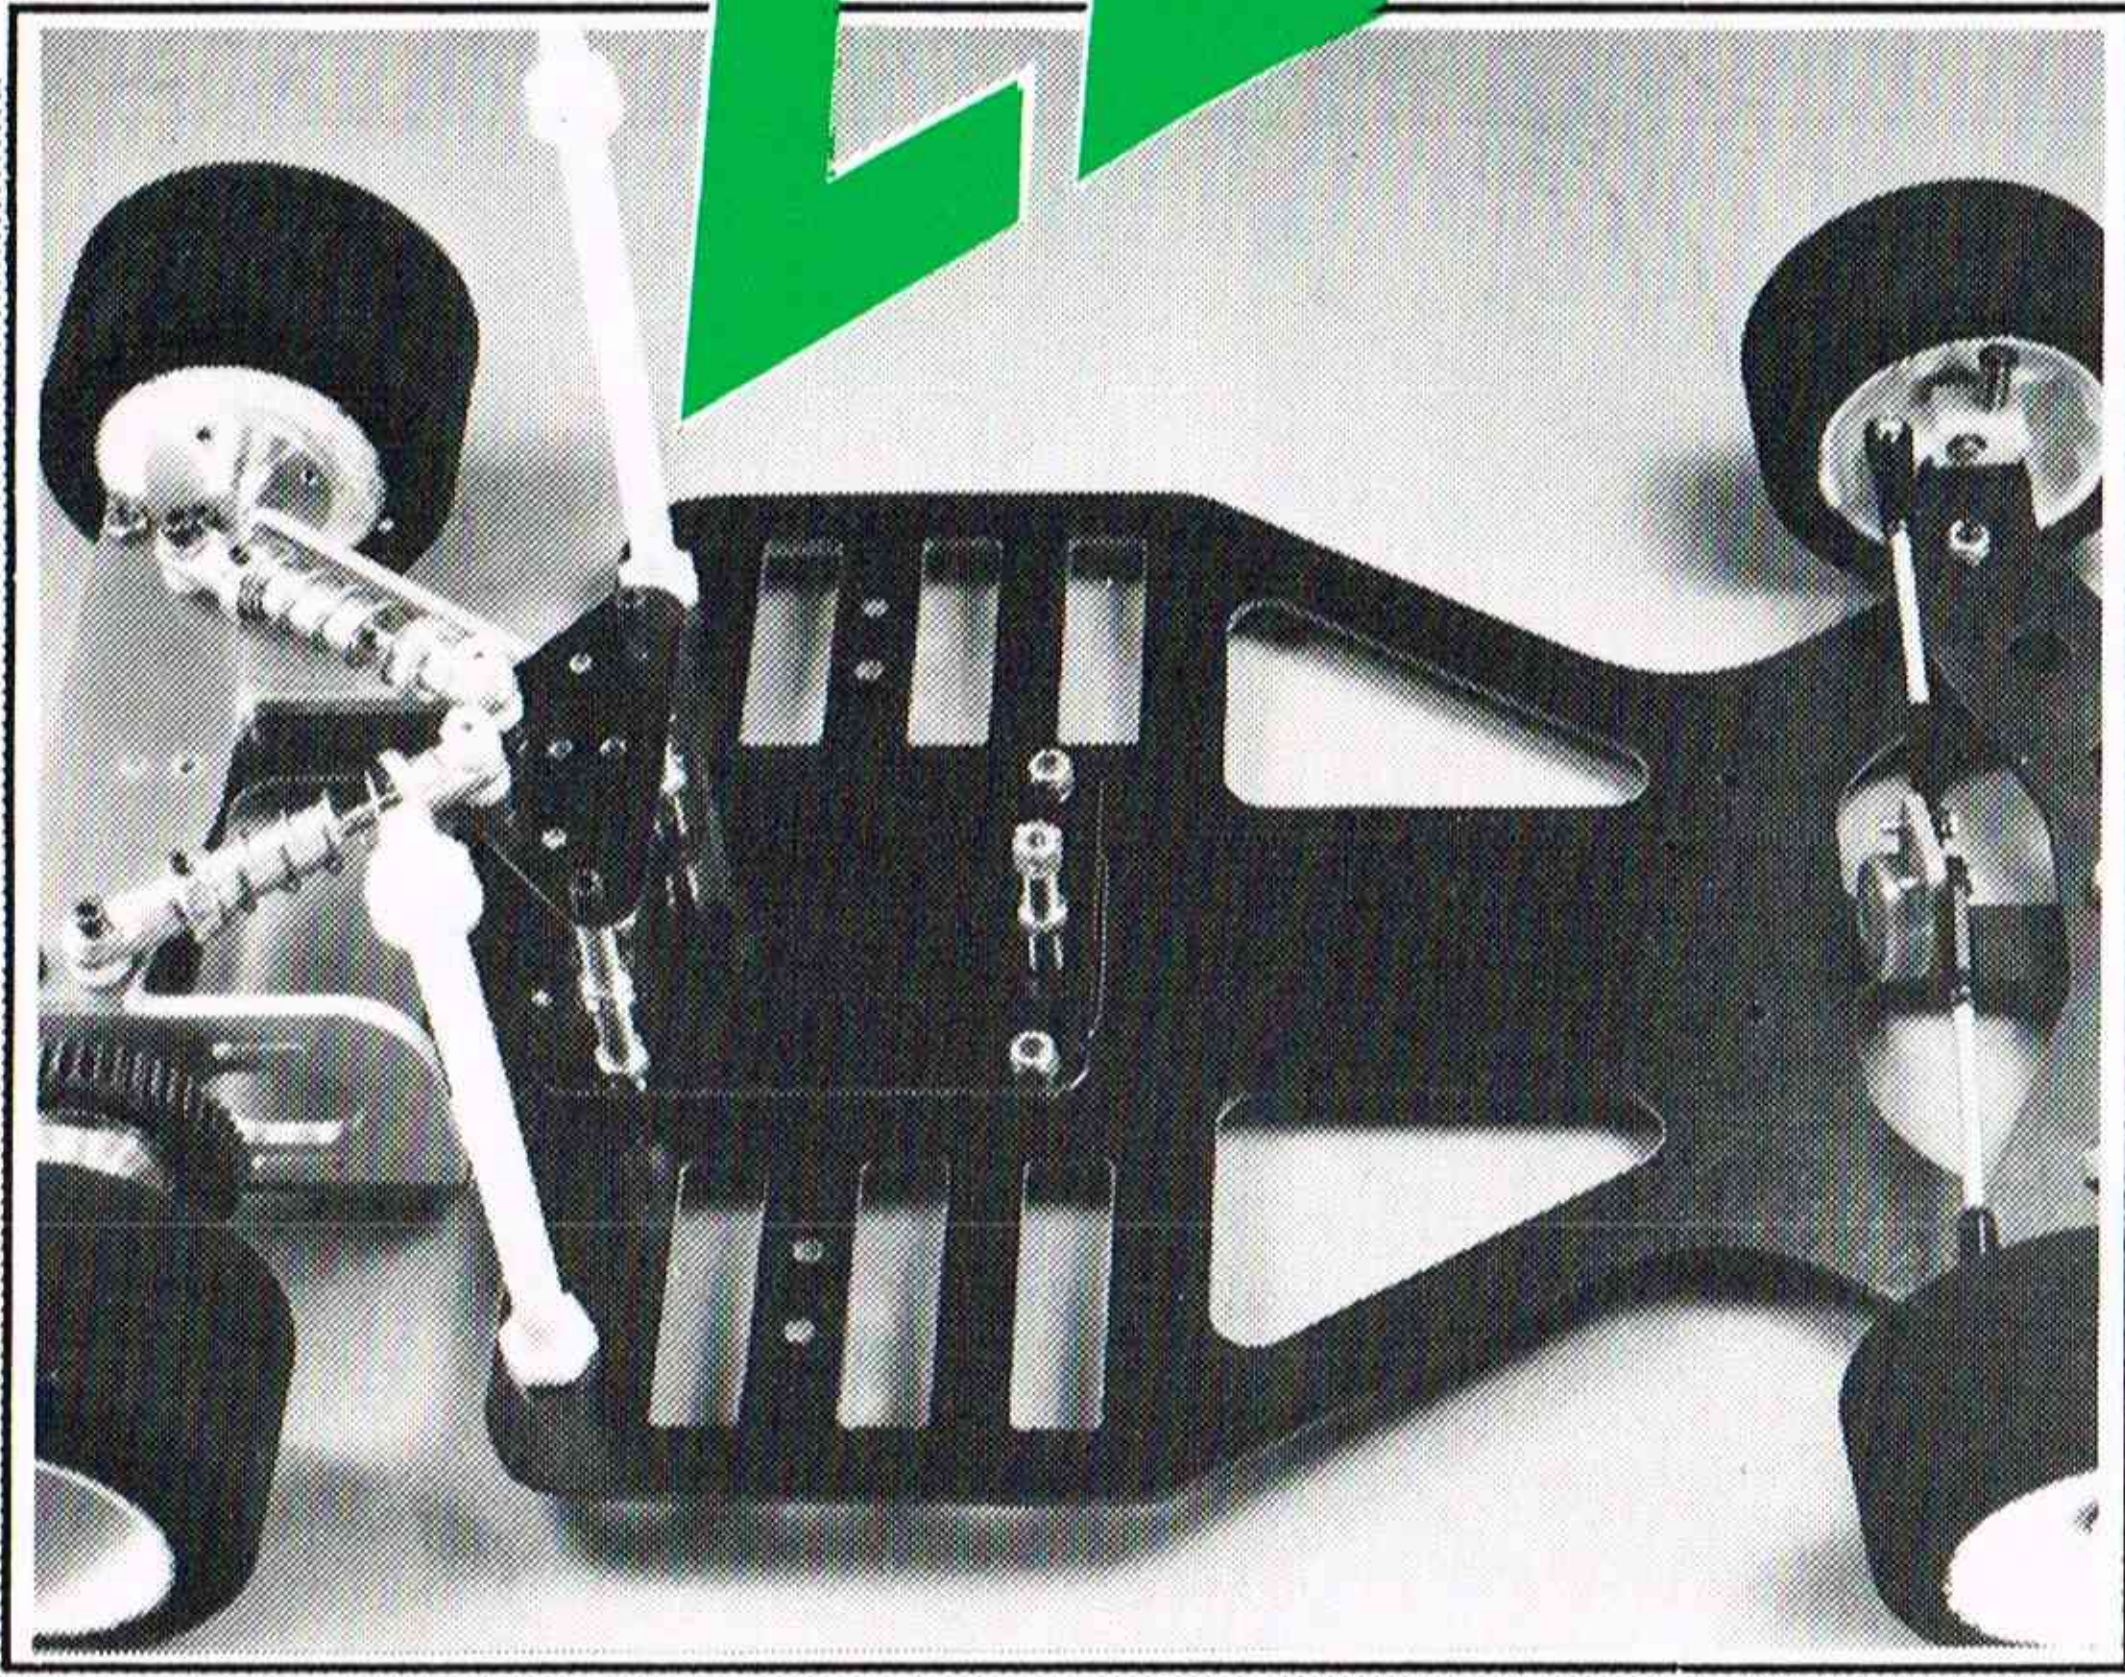

10th & 12th scale cars.

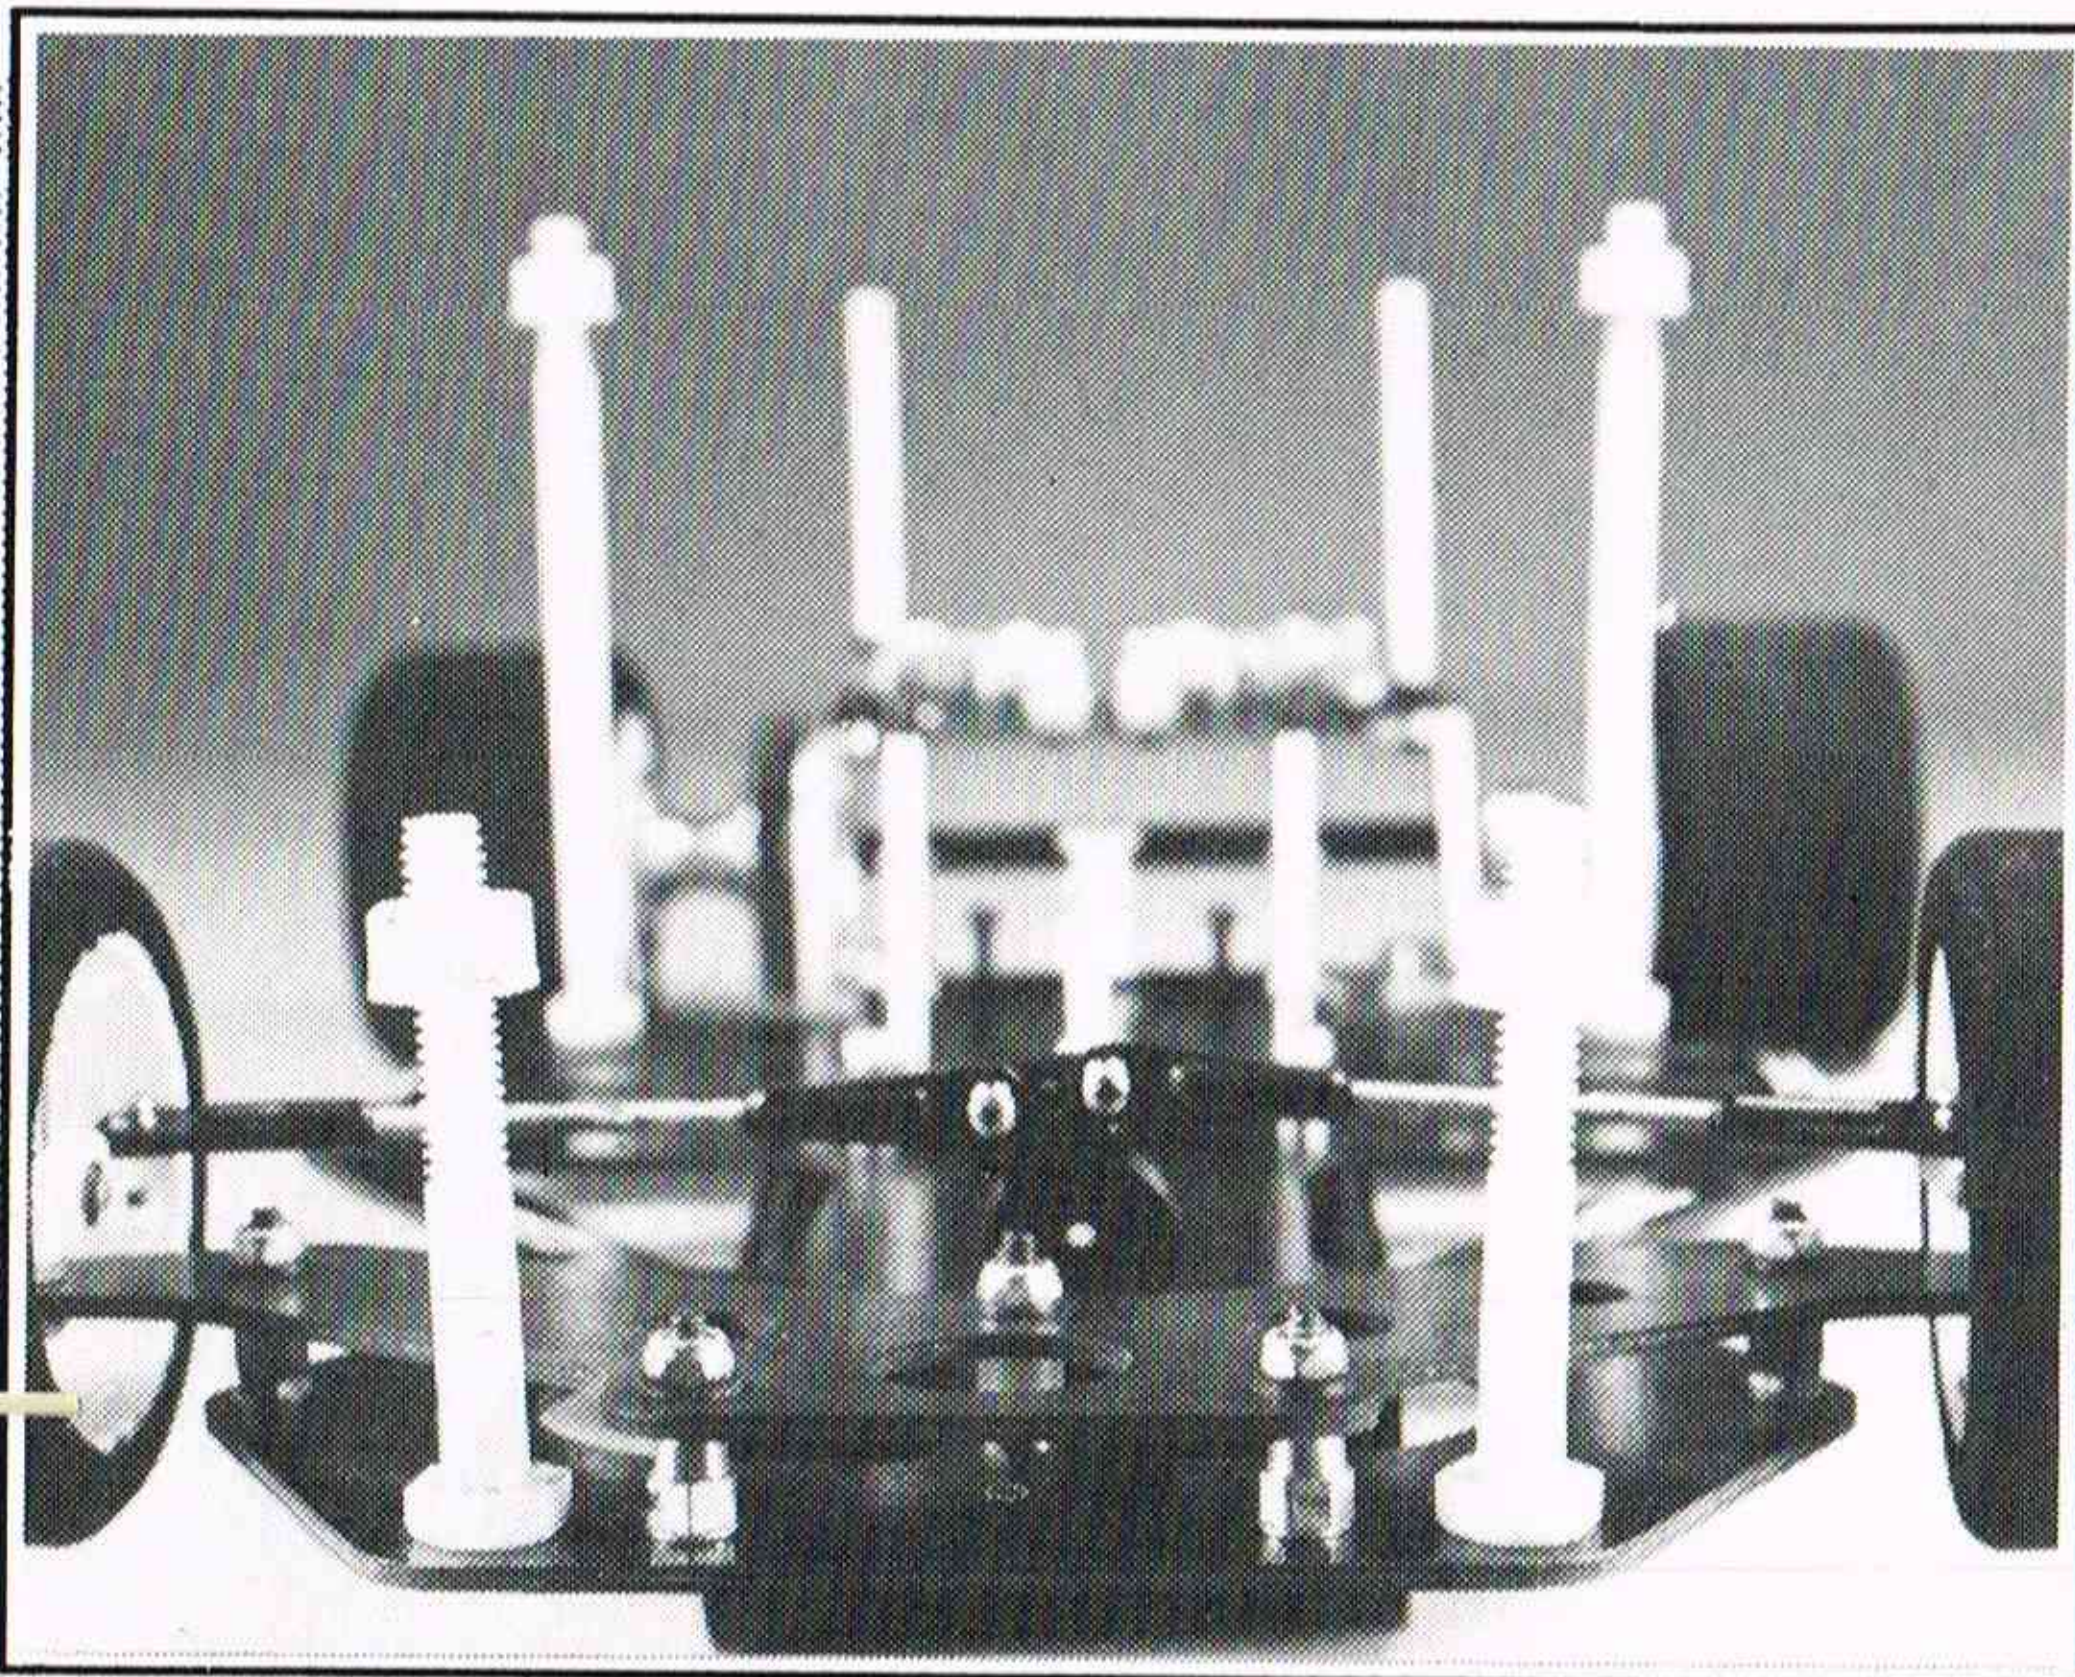

BoLink R/C Cars 420 Hosea Road, Lawrenceville, Georgia 30245  
Send \$3.00 for complete catalog. Phone: (404) 963-0252

# ELIMINATOR 10

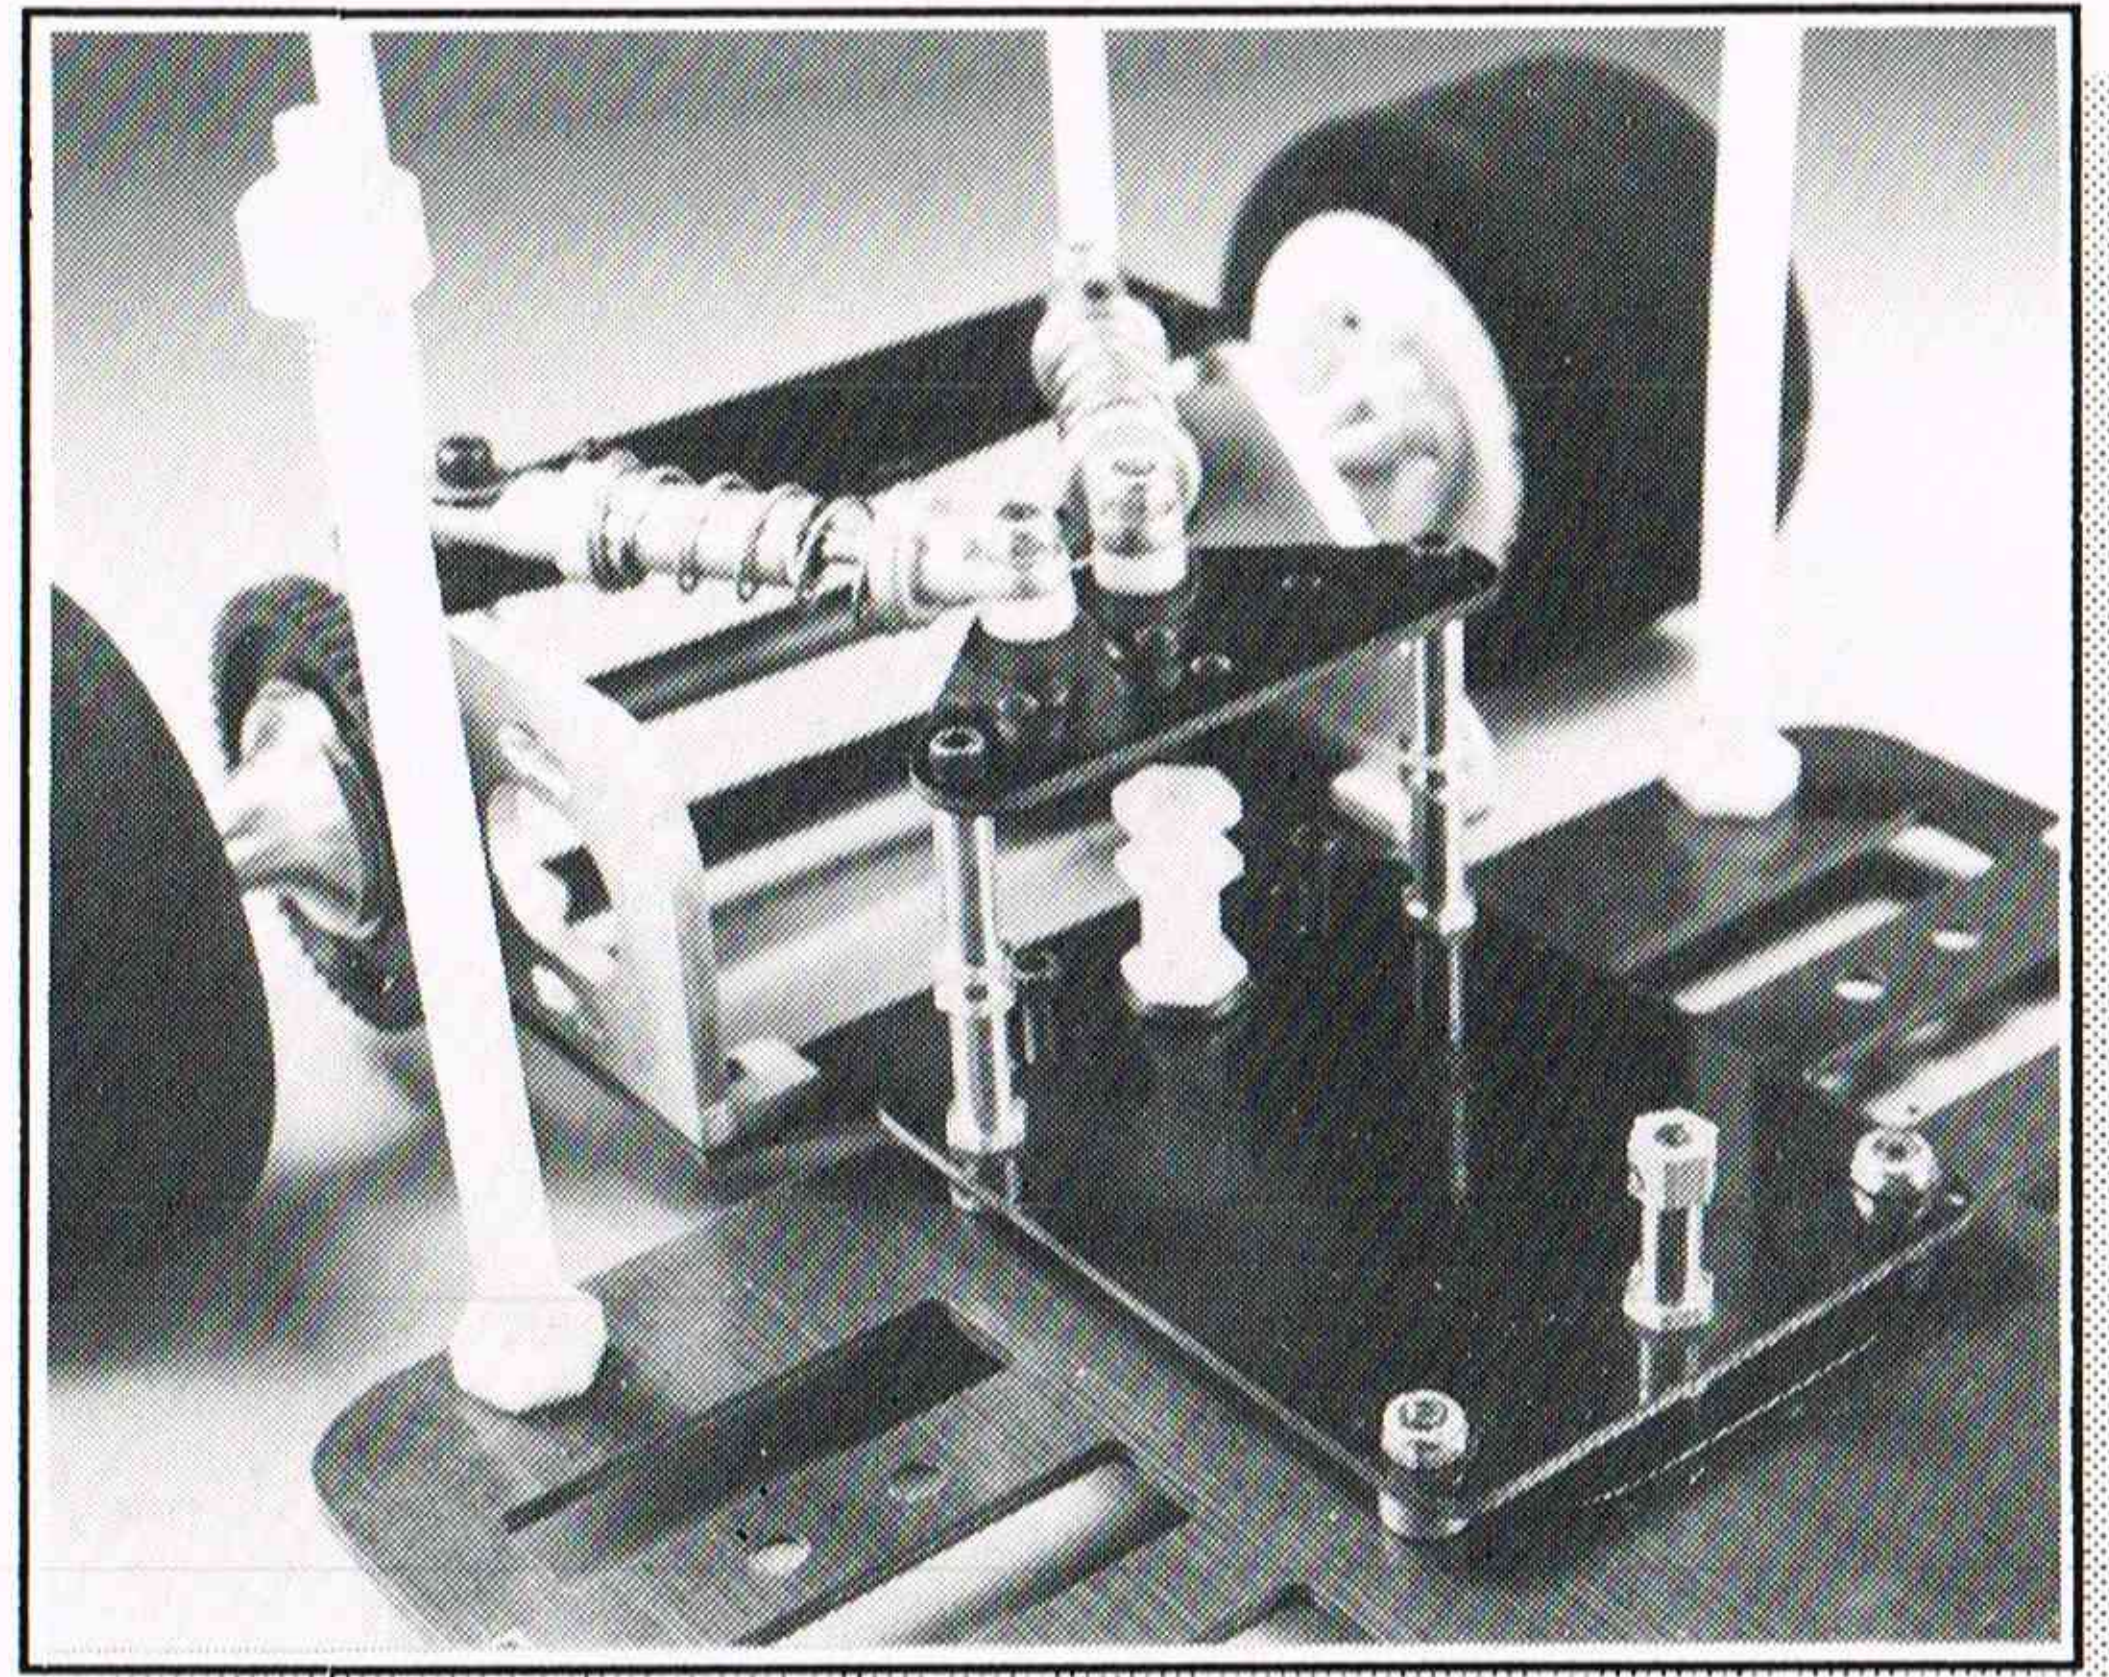

BY **BoLINK**

The **Eliminator 10** uses a single plane high strength chassis designed for saddle pack batteries, and includes BoLink's new nylon battery holders that end battery loss problems forever.

It's rigid beam type front end plate makes caster, camber and ride height adjustment easy.

The T-plate type rear suspension uses two shocks with adjustable coilover springs and the same race proven aluminum motor & axle mounts as BoLink's Invader.

## **BL-1370**

**ELIMINATOR 10 KIT** complete less batteries. Complete chassis kit with FastTrack tires, differential, motor, speed control, body mounts and body.

## **BL-1371**

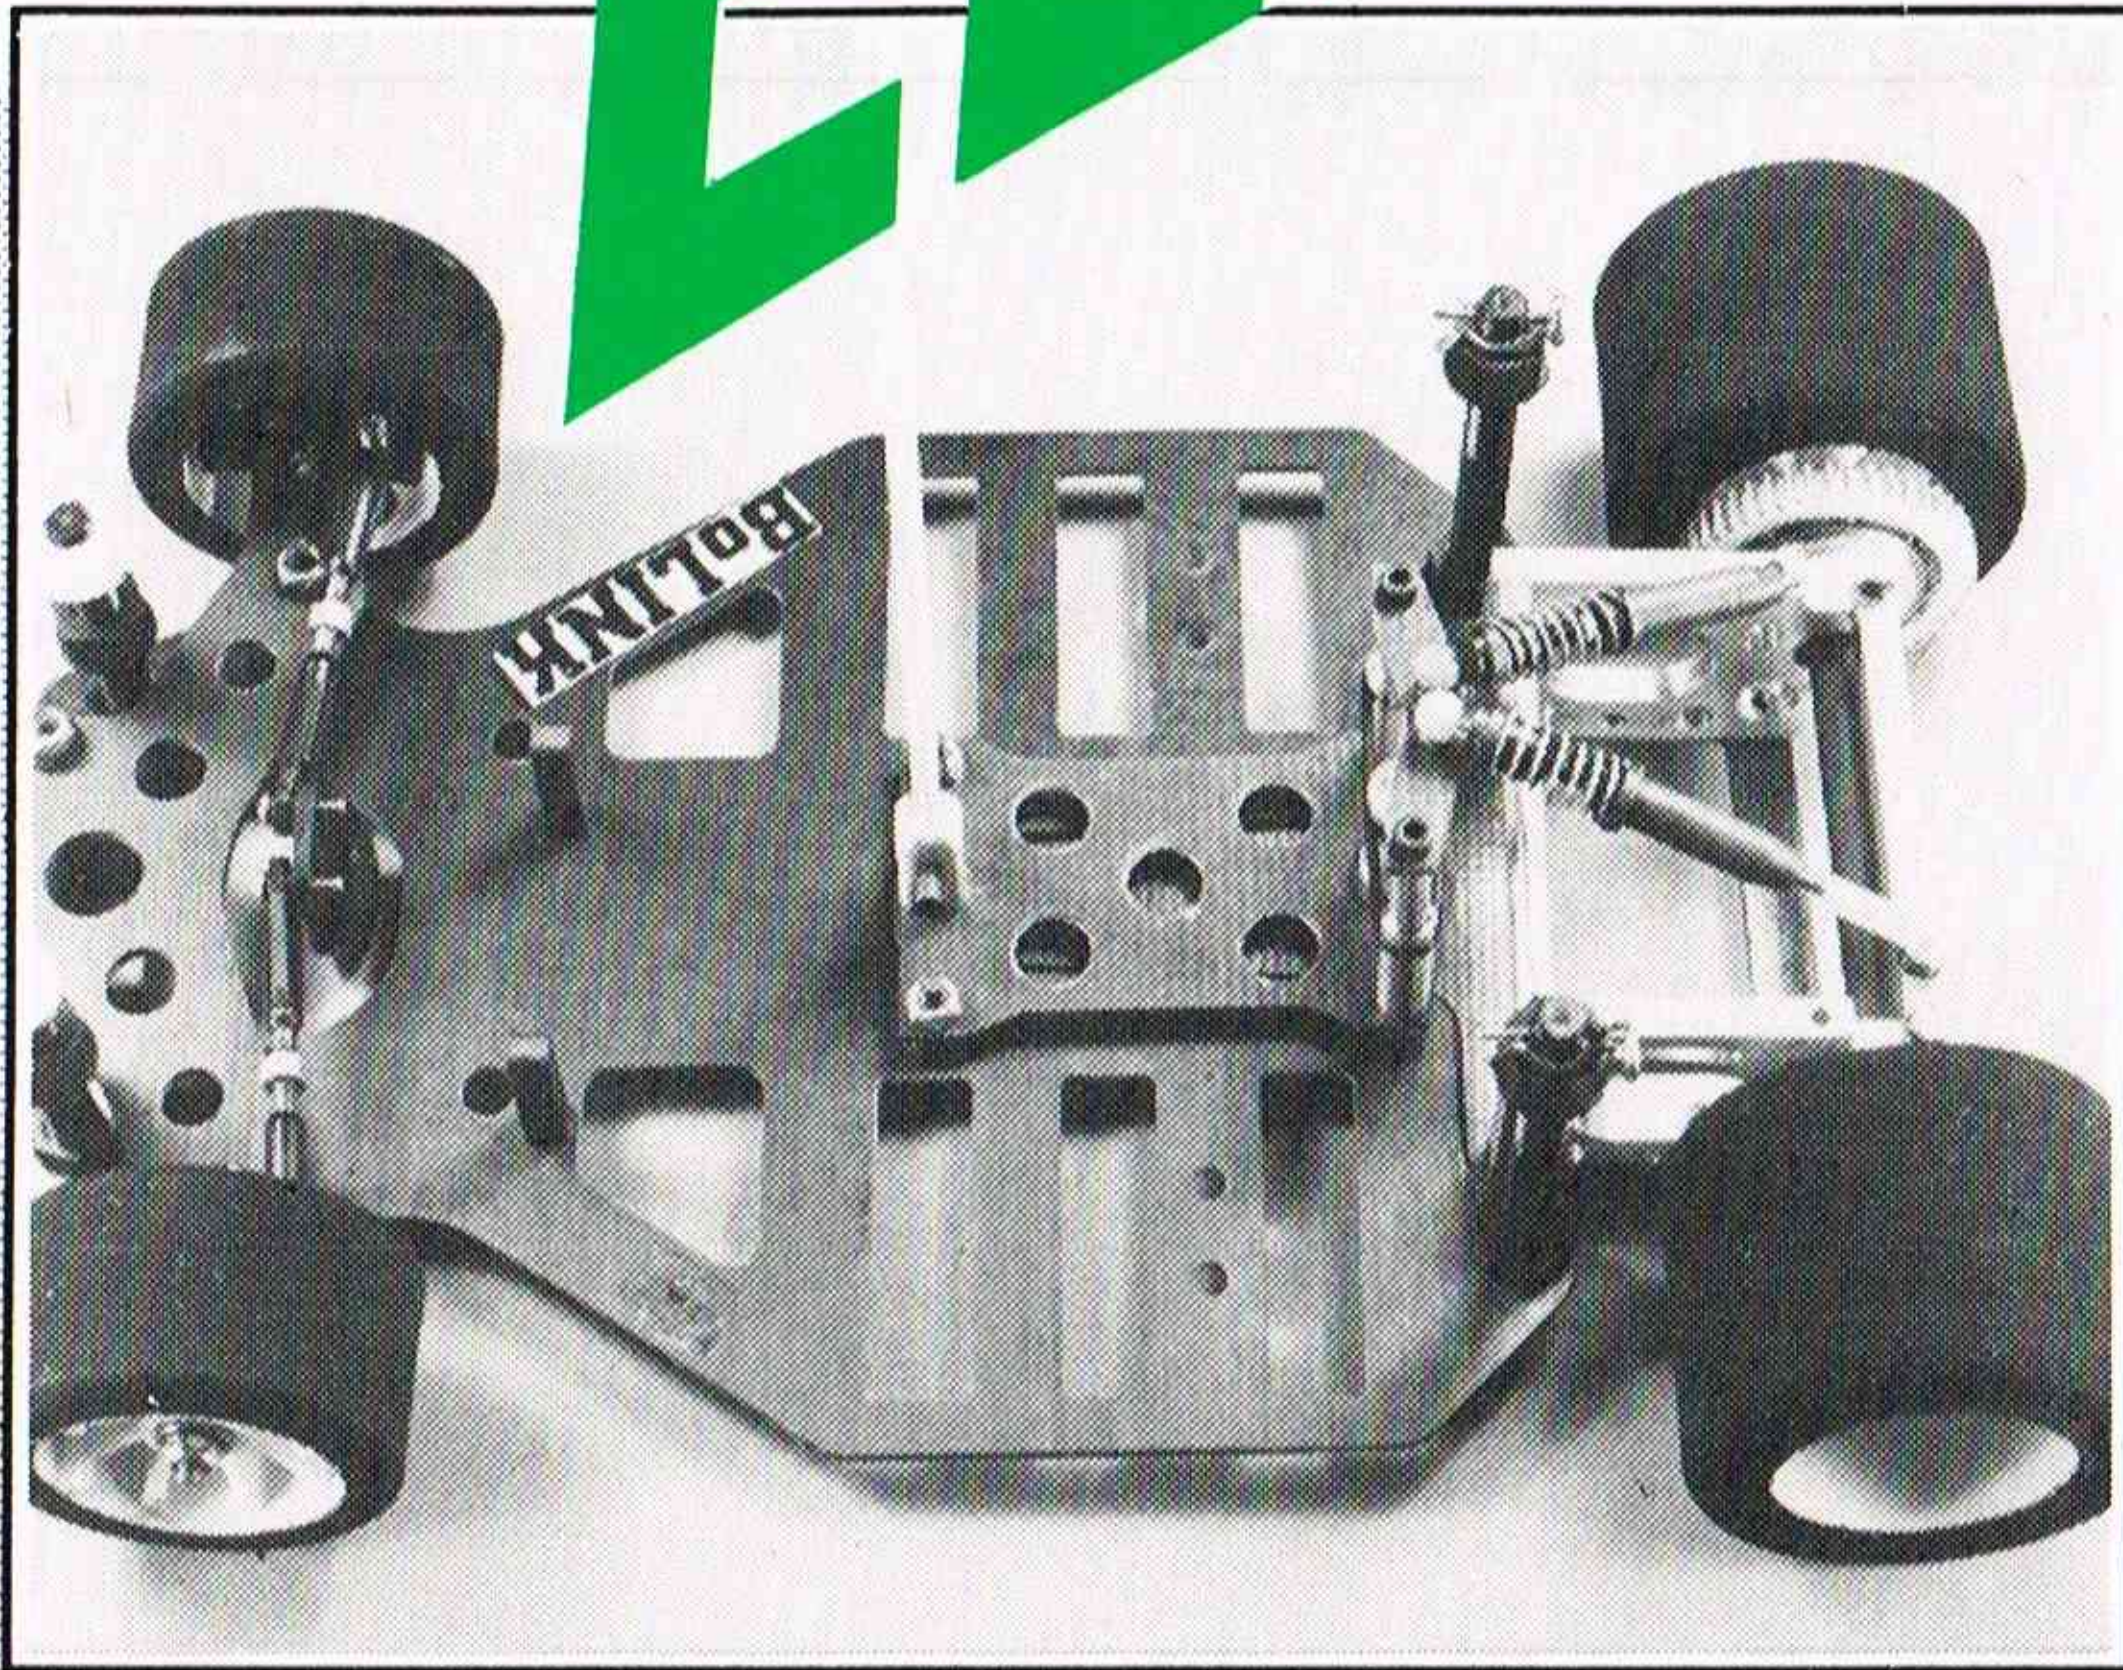

**ELIMINATOR 10 KIT** less electrics. Same as 1370 without motor and speed control.

## **BL-1372**

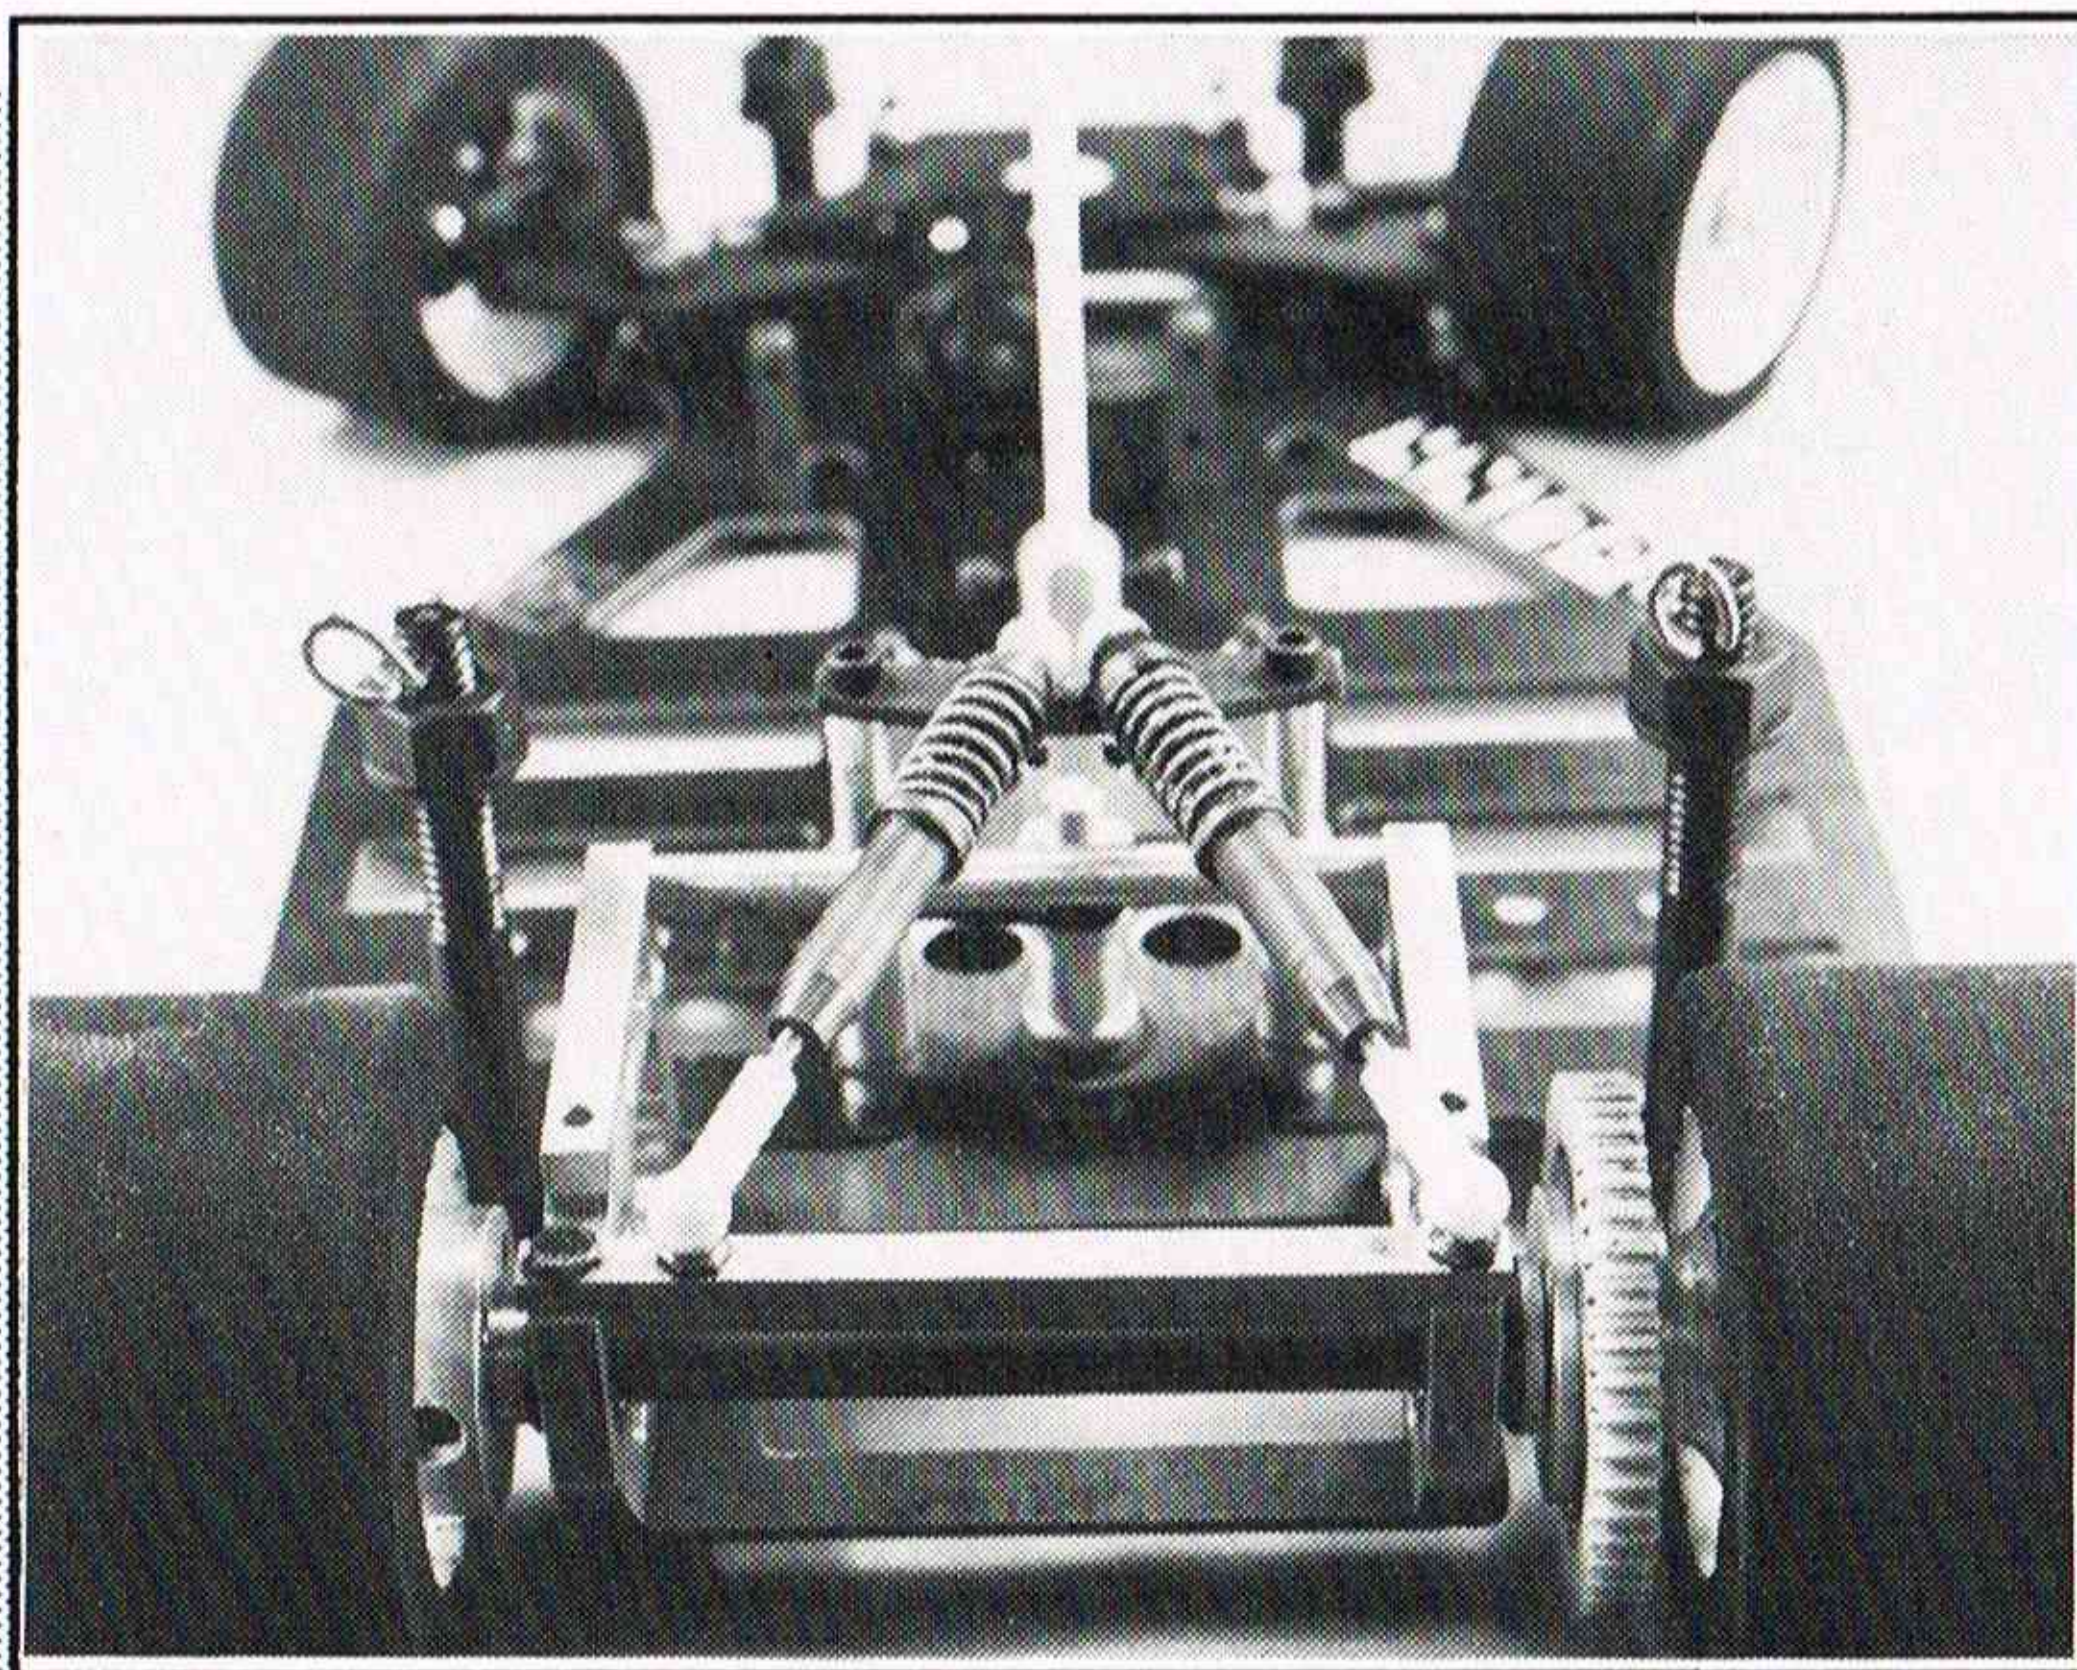

**GRAPHITE ELIMINATOR 10 KIT** less body, mounts and electrics. Contains graphite chassis, axle, 6 ball bearings, aluminum wheel hubs and FastTrack tires.

# ELIMINATOR 12

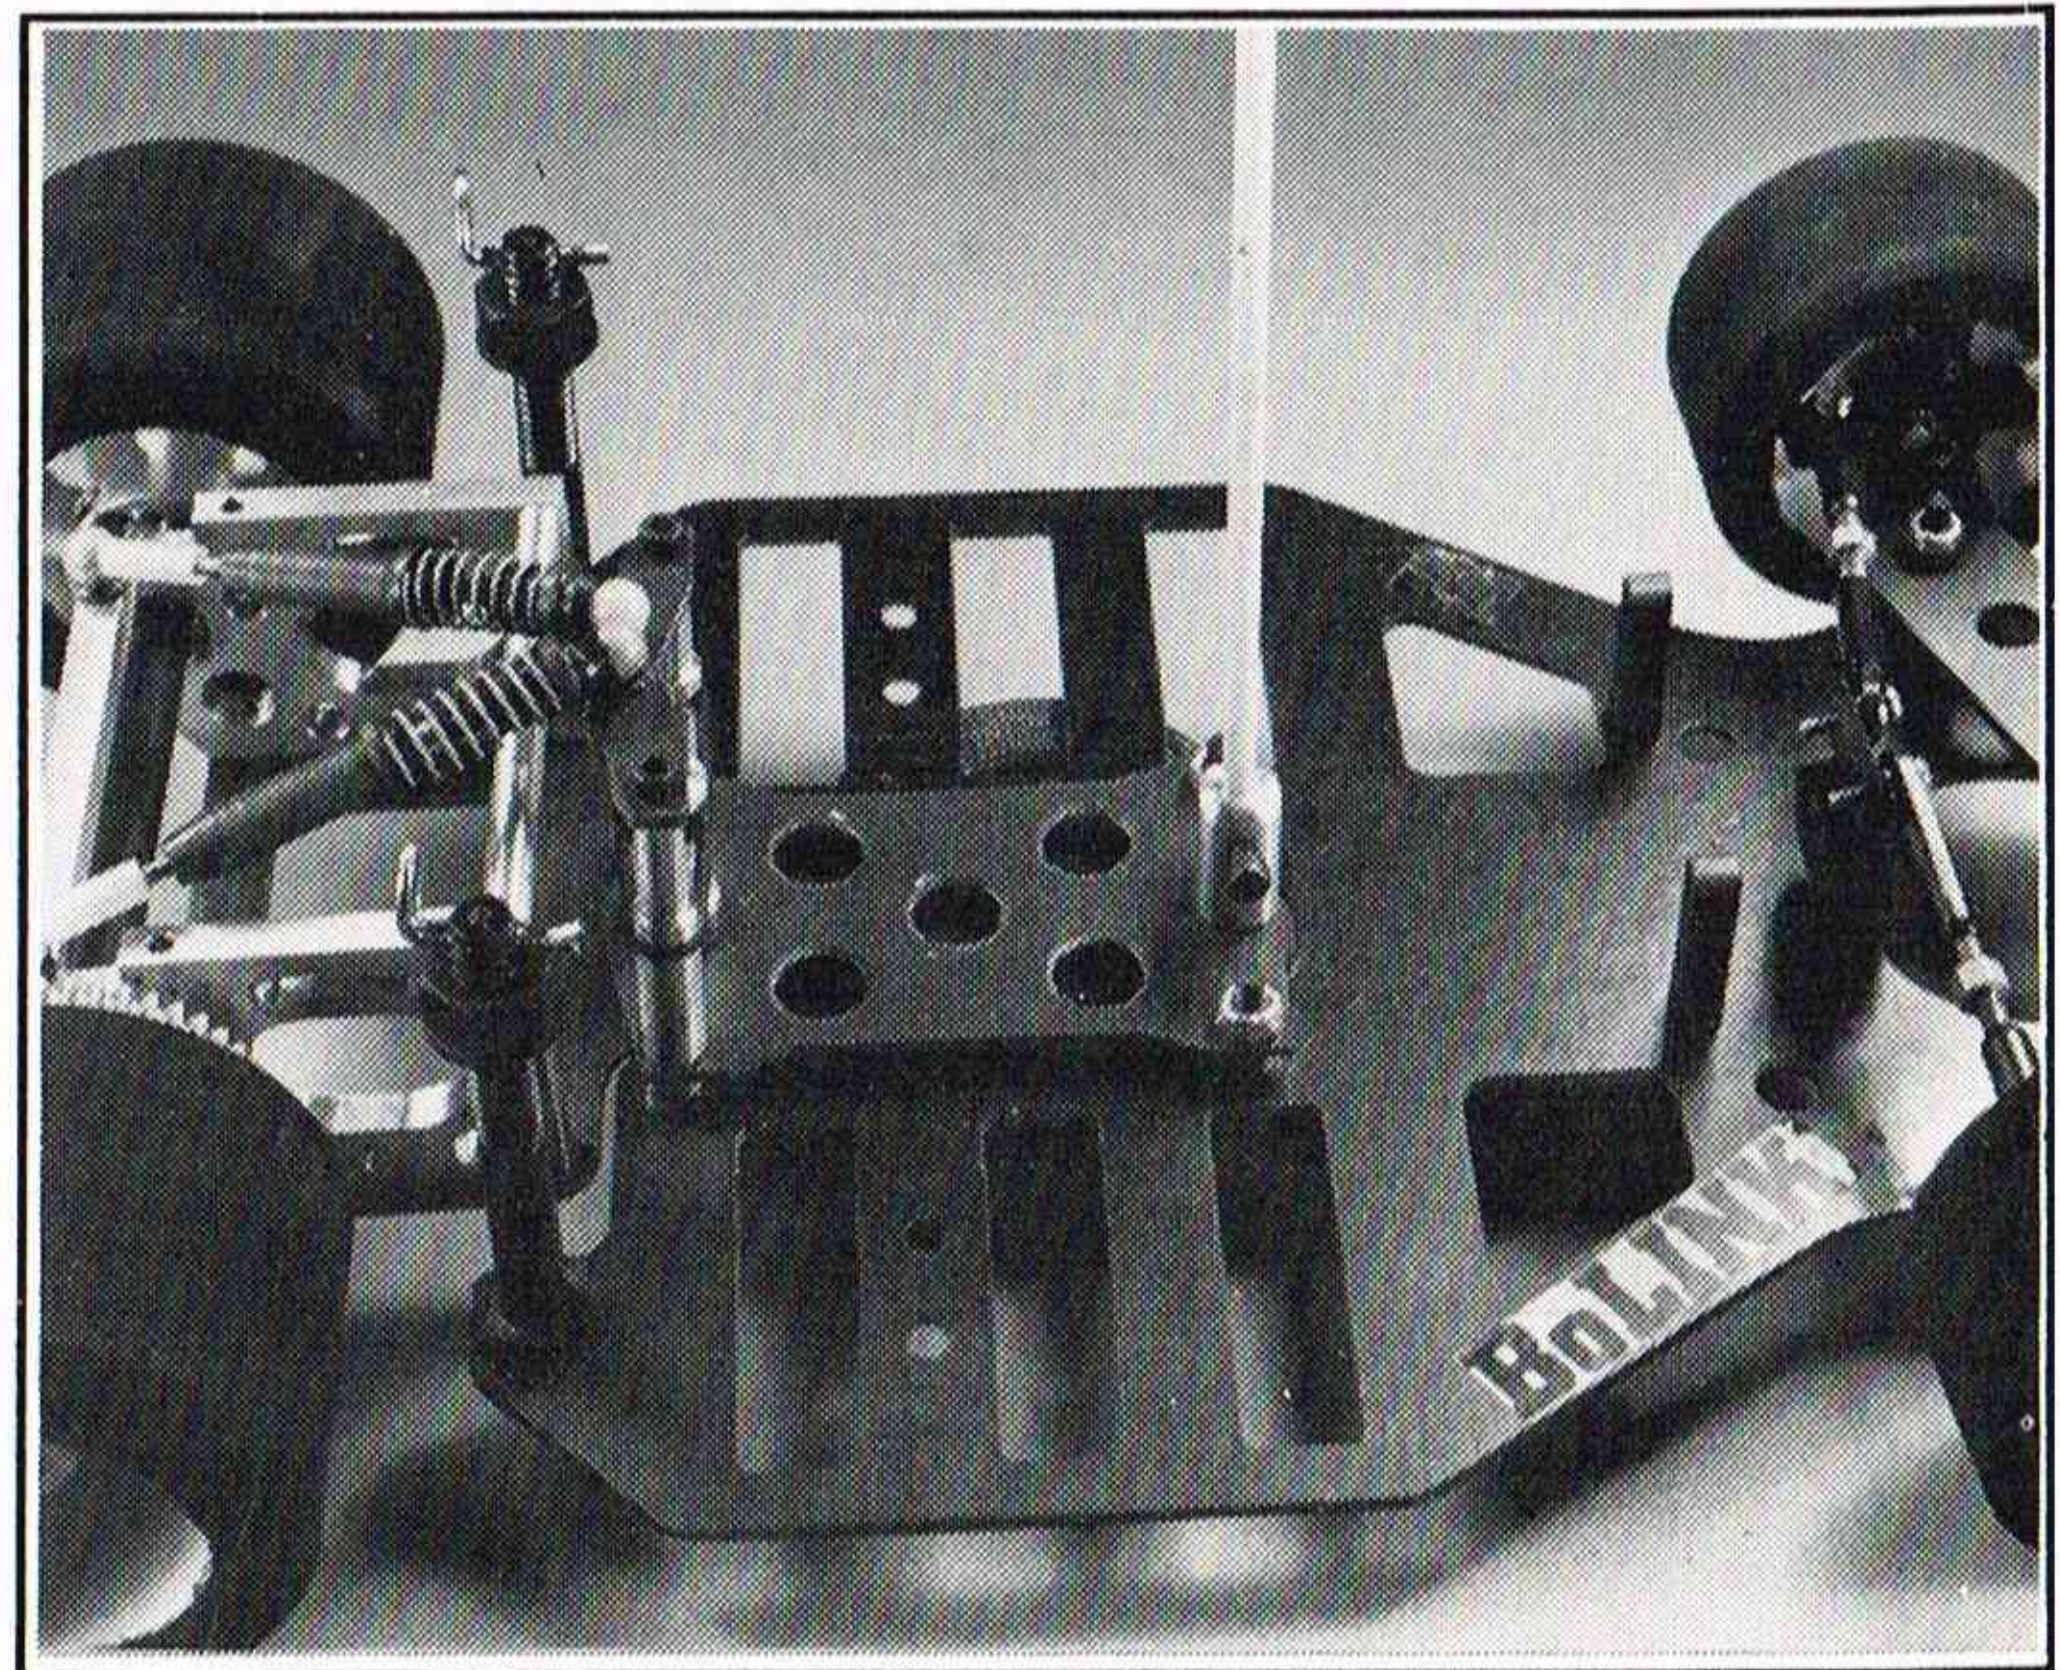

BY **BOLINK**

The **Eliminator 12** is an **ALL NEW** State of the Art 1/12 race car designed for carpet and asphalt racing using a single plane chassis design and the same battery holders as the Eliminator 10.

It uses two special silicone damper shocks to control the rear flex and adjust "tweak".

Also the side roll can be adjusted with the damper nut and centering is controlled with two o-rings.

**BL-1356**  
**ELIMINATOR 12 BASIC KIT.** Complete chassis kit less tires, axle, body and electronics.

**BL-1357**  
**GRAPHITE ELIMINATOR 12 BASIC KIT.** Same as 1356 with all graphite chassis components.

**BL-1358**  
**ELIMINATOR 12 KIT** less electrics. Same as 13 with axle, tires, body and mounts.

**BL-1359**  
**GRAPHITE ELIMINATOR 12 KIT** less electrics. Same as 1357 with 6 ball bearings, graphite axle tires, body and mounts.

# Available Accessories for Eliminator 10 and Eliminator 12

All replacement  
parts are available.

## ADAPTOR

Part: BL-3420	Front adaptors for Tamiya and other cars using 11mm OD bearings.	\$2.00
Part: BL-3421	Front adaptors for BoLINK, R/C 10 and other cars using 5/16 OD bearings.	\$2.00
Part: BL-3425	1 1/8 wide front wheels for use with 3420 and 3421 adaptors	\$4.00
Part: BL-3061	1 1/8 wide front tires blue dot rubber use with 3420 and 3421 adaptors.	\$15.00
Part: BL-3062	1 1/8 wide front tires green dot rubber use with 3420 and 3421 adaptors.	\$15.00

BoLINK's new front adaptors allow the use of the same front tires on many different types of 1/10 scale cars. There are two different adaptors or hubs. Adaptor A (BL-3420) is made to fit Tamiya and any other cars using 11mm dia. front bushings or standard Tamiya ball bearings. Adaptor B (BL-3421) has a 5/16th hole to fit BoLINK and R/C 10 front bearings. BoLINK has NEW front wheels and tires to fit these hubs. They are the same bolt pattern as standard BoLINK rears to allow the use of even wider tires. Both adaptors are offset so they can be turned around to change the track width on the front of the car. Also the tires can be changed without removing the bearings.

Complete information on all BoLINK's products are available by sending \$3.00 for our latest catalog and price sheet and a FREE "He Who Dies With The Most Toys Wins" bumper sticker. Write to BoLINK R/C Cars, Inc., 420 Hosea Rd., Lawrenceville, GA 30245.

NEW  
PRODUCTS

## BATTERY HOLDER

Part: BL-5378	One pair battery holders with screws.	Price: \$3.00
Part: BL-5378-A	Battery holder screws.	Price: \$1.50
Part: BL-5378-B	Bulk pack (4 pair) battery holders.	Price: \$10.00

BoLINK's new nylon battery holders are the most reliable battery mounting devices we have ever seen. They provide a solid battery mount so that the only time your batteries come out of your car is when YOU remove them. They are standard equipment on BoLINK's new Eliminator 10 and 12 and can be used on most cars, since they only move the batteries apart about 1/16th of an inch. They also can be used between two stick batteries for cars made for two 3-cell sticks.

Complete information on all BoLINK's products are available by sending \$3.00 for our latest catalog and price sheet and a FREE "He Who Dies With The Most Toys Wins" bumper sticker. Write BoLINK R/C Cars, Inc., 420 Hosea Rd., Lawrenceville, GA 30245.

## TIRES

BoLINK offers one of the industry's most complete tire selections. We have wheels to fit R/C 10's, selected Tamiya cars and the most popular road racing 1/10th scale cars. Wheels are available in either white or chrome and with eight (8) different knobby or molded tires, grooved and crosscut foam and foam slicks in all popular rubber compounds. Our fronts and BoLINK tire rears are now available in a low-profile series called FastTracks - designed for the fast-growing 1/10th scale carpet and superspeedway racing.

By the time you read this, BoLINK's *ELIMINATOR 10* & *ELIMINATOR 12* will be available at your local hobby shop. Don't miss this exciting, state-of-the-art race car!
