CHASSIS COMPONENTS

1017 - VELCRO BATTERY STRAPS - These buckle straps can be used to strap your batteries in place on your chassis. **\$3.99**

1028 - HOT SHOT BATTERY TRAY - Replaces pressed fiber tray with stronger G-10 fiberglass. Reduces chassis flex. Chassis flex can cause damage to propellar shaft SA-13 (X9011). Predrilled for 3046 Nerf Wings. **\$3.50**

SUSPENSION COMPONENTS

1501 - HEAVY DUTY "STOCK" STEERING - Special heim joint ends coupled with 4-40 stainless steel rod eliminates those troublesome ball joints and weak steering rods. Replaces all three rods. Complete with all screws and nuts. Tamiya RR, SS, F-150, SC. **\$6.99**

1504 - ADJUSTABLE COIL OVER SUSPENSION - Total adjustment of your Tamiya RR, SS, F-150, SC suspension is possible. Our coil spring allows you to fine tune your cars suspension whenever you want in just seconds. A must for the serious racer. Infinitely adjustable, bolt on ease, can be used front or rear. Includes 2 pairs of stainless steel springs. Pair **\$9.99**

1515 - KYOSHO COIL OVER - Springs are the secret to any coil over suspension. Our Kyosho coil overs come with two sets of springs (silver-light, gold-heavy). Our research and testing has shown that these custom wound springs are the best spring rates available. Coil over brackets use double set screws (90°/3mm). For Kyosho FM-71, CB-88 and CB-89 shocks. (Pair) **\$11.99**

1519 - 4-40 TIE ROD ENDS - Replacement tie rod ends for our steering units. (Pair) **\$1.59**

1529 - SHOCK "O" RINGS - These "O" rings fit CRP, Tamiya, Cox, AYK, and Kyosho shocks. 8 per package. **\$1.99**

1532 - SERVO SAVER FUTABA - This servo saver is designed for the rough driving of off-road. It will protect your servo. Fits Futaba S-28, 29, 30, 31 and 32. **\$3.50**

1539 - FRONT END PINS (TAMIYA) - These front pins are designed with maximum strength in mind, yet they are not brittle. Replaces #N-1 on the RR, SS, F-150, SC. **\$14.99**

1544 - 2-56 TIE ROD ENDS - Same as 1519 except uses 2-56 rods. **\$ 1.59**

1547 - HORNET REAR AXLE SPRINGS - Helps reduce the harshness in the rear end. Replaces axle springs (P/N G2) with softer springs. Two different spring sizes are included to suit your driving needs. **\$1.50**

1548 - SERVO SAVER - AIRTRONICS, SANWA, CHALLENGER, KRAFT - This servo saver is designed for off-road driving. Protects your servo gears. Fits Airtronics, Kraft, Sanwa, Challenger, Servos with splined drive. **\$3.50**

1549 - LARGE SERVO SAVER - Designed for 1/10 and 1/8 scale cars. Larger and extra heavy duty. Contains three interchangeable inserts to fit most of the popular servos. **\$4.99**

1551 - FRONT SUSPENSION PIVOT BALLS - Replaces the aluminium 8mm Ball connectors with Heavy Duty Steel Balls. Reduces the chance of breakage and wear. Designed for newer steering blocks with larger thread holes. 4 per package. Fits Hot Shot, Super Shot, Big Wig, Boomerang. **\$6.99**

1552 - RC10 FRONT STUB AXLES - Direct replacement hardened front axles (Assoc. P/N 6219) with larger bearing shaft. This allows you to use Tamiya wheels and the larger Tamiya bearings on the front of your RC10. Hex shape to fit Assoc. steering blocks without modification. Also has larger threads to reduce breakage. (Pair) **\$8.99**

1553 - R/C STUB AXLES-ASSOCIATED BEARINGS - These direct replacement front stub axles have a larger thread to reduce breakage. Our axles are hardened and ground to exacting standards. Designed for associated bearings. **\$8.99**

1554 - BIG BEAR STEERING IMPROVEMENT KIT - Replaces stock steering ball ends with heavy duty heim joints. Reduces the chance of the steering linkage popping off of the steering arm. **\$2.99**

1555 - R/C 10 COIL-OVER CLAMPS (SET OF 4) - These replacement adjustable coil-over clamps are made from nylon. Designed to give better clamping to shock cylinder. **\$5.99**

1556 - FRONT SHOCK KIT-HORNET, GRASSHOPPER - Now add fully adjustable coil-over suspension to the front of your Hornet/Grasshopper. Eliminates the weak shock towers that are constantly breaking. Comes complete with mounting bracket, shocks and all hardware. Some modification necessary (drilling 2 holes, and trimming off stock shock towers). **\$19.99**

1601 - FRONT SHOCK KIT - FROG, BRAT, - You can now add front shocks and adjustable coil over suspension to your Frog or Brat. Giving you better handling and control. Kit comes complete with shocks, coil overs, brackets, and hardware. Fits Blackfoot w/mod to body post. (Pair) **\$21.99**

1602 - REAR ADJ. COIL OVER-FROG - The springs on the Frog rear shocks are too stiff. This kit comes with two sets of softer springs and adjusting collars for limited adjustment. Fits Frog, Wild-One. **\$5.99**

1603 - HEAVY DUTY STEERING-FROG/BRAT - Replaces the light steering rods with 4-40 stainless rods and special ends to help end the bending problems. **\$6.50**

1604 - HEAVY DUTY STEERING-HORNET/GRASSHOPPER - A much stronger steering rod set up to reduce bending problems. **\$4.99**

1605 - REAR AXLES-FROG, BLACKFOOT, BRAT, WILD-ONE, FAST ATTACK - These lightweight injection molded rear axles are stronger than the stock metal axles and don't wear out the ends as easily. (Pair) **\$3.50**

1606 - REAR SUSPENSION SUPPORTS-FROG, BLACKFOOT, BRAT - These side supports with Delrin® center bushing greatly reduce the wear factor of the rear trailing arms while at the same time give added support and reduce trailing arm flex. **\$9.99**

1607 - FRONT SUSPENSION ARMS-FROG, BLACKFOOT, BRAT - The front suspension arms on the Tamiya, Frog, Brat, Blackfoot wear quickly and they become sloppy. Ours come with bushings molded into the arms to reduce wear and give longer life. (2 pair needed per car). (Pair) **\$6.99**

1608 - DIFFERENTIAL BEARING SUPPORTS FROG, BLACKFOOT, BRAT - Replaces P/N B2 with a tighter fitting support. Reduces up & down and side to side movement of the differential gears and output shafts. Provides smoother operation. (Pair) **\$1.99**

1609 - STEERING KIT-FOX, WILD ONE - Replacement steering for Tamiya Fox and Wild One. Eliminates the ball joints that wear and pop off. All hardware included. Also fits Fast Attack. **\$4.99**

1610 - FRONT SWAY BAR-FOX - Reduces body roll and adds stability. Fits stock Fox with only 2 modifications (trim chassis and drill 2 holes). All hardware included. **\$8.99**

1611 - ADJ. COIL-OVERS-FOX, BOOMERANG (SET OF 3) - New fully adjustable coil-overs for Tamiya yellow plastic shocks. Clamps are adjustable to suit your driving needs. Replaces stock spacers. Includes new clamps and springs. **\$5.99**

1614 - FRONT A-ARM STABILIZER-FOX - Designed to reduce lateral movement of the upper suspension arms. **\$1.99**

1615 - REAR SHOCK BRACKET-FOX - Direct replacement aluminum shock brackets. Mounts stock shocks in higher position to reduce rear axle binding. Also lets you mount longer throw shocks. **\$3.99**

1616 - REAR AXLES-FALCON - These all plastic axles are designed to withstand the high frictional heat that damages the stock axles. (Pair) **\$3.99**

1650 - A-ARM STABILIZER - Reduces lateral movement on the front upper suspension arms. Injection molded Delrin. Hot Shot, Super Shot, Big Wig, Boomerang. **\$2.99**

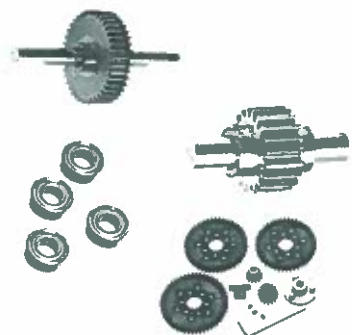

1653 - ADJ. COIL-OVERS-SUPER SHOT, FALCON, BIGWIG (SET OF 4) - Fully adjustable coil-overs for Tamiya yellow plastic shocks. Clamps are adjustable to suit your driving needs. Replaces stock spacers. Includes new clamps and springs. **\$6.99**
