

"Quality"—the difference between fun & frustration

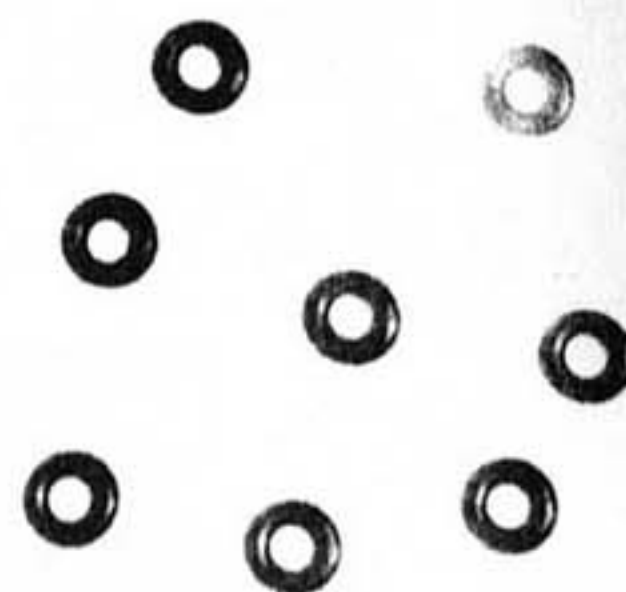

1517 - VELCRO® BATTERY STRAPS - These buckle straps can be used to keep your batteries in place on your chassis. **\$3.99**

1501 - HEAVY-DUTY "STOCK" STEERING - Special heim joint ends coupled with 4-40 stainless steel rod eliminates those troublesome ball joints and weak steering rods. Replaces all three rods. Complete with all screws and nuts. Tamiya RR, SS, F-150, SC. **\$6.99**

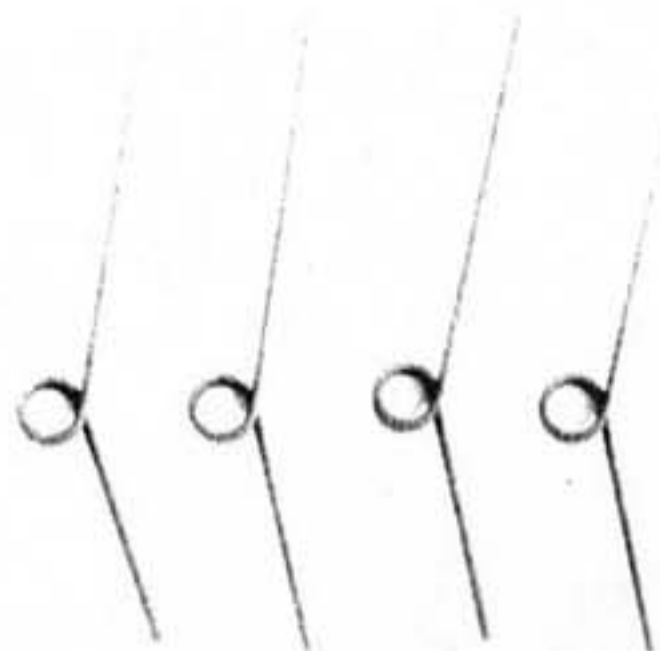

1519/1544 - TIE ROD ENDS - These replacement tie rod ends are for our steering kits or use them to create your own using CRP 2527 rod.
1519 - TIE ROD ENDS FOR 4-40 ROD **\$1.59**
1544 - TIE ROD ENDS FOR 2-56 ROD **\$1.59**

1529 - SHOCK O-RINGS - These O-Rings fit CRP, Tamiya, Cox, AYK, and Kyosho shocks. 8 per package. **\$1.99**

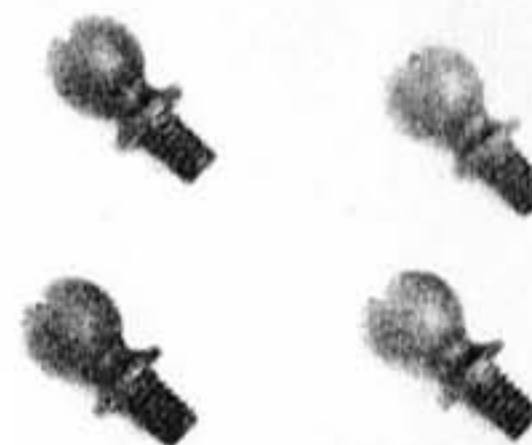

1512/1548 - SERVO SAVER - These servo savers are designed for off-road driving. They protect your servo gears.
1512 - SERVO SAVER - FUTABA SPLINED DRIVE SERVOS **\$3.50**
1548 - SERVO SAVER - AIRTRONICS, KO, SANWA, CHALLENGER **\$3.50**

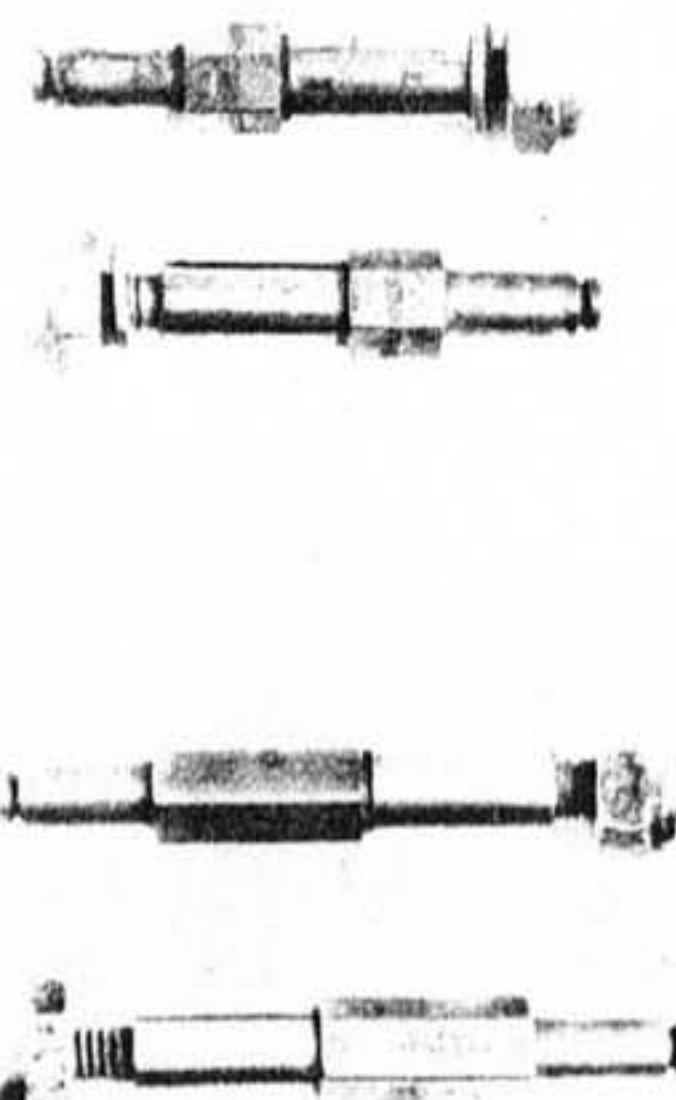

1547 - HORNET REAR AXLE SPRINGS - Helps reduce the harshness in the rear end. Replaces axle springs (P/N G2) with softer springs. Two different spring sizes are included to suit your driving needs. **\$1.50**

1549 - LARGE SERVO SAVER - Designed for 1/10 and 1/8 scale cars. Larger and extra heavy-duty. Contains three interchangeable inserts to fit most of the popular servos. **\$4.99**

1551 - FRONT SUSPENSION PIVOT BALLS - Replaces aluminum 8mm ball connectors with heavy-duty steel balls, reducing chance of wear and breakage. Designed for steering blocks with larger thread holes. 4 pieces. Fits Hot Shot, Super Shot, Big Wig, Boomerang, HSII, and Super Sabre. **\$6.99**

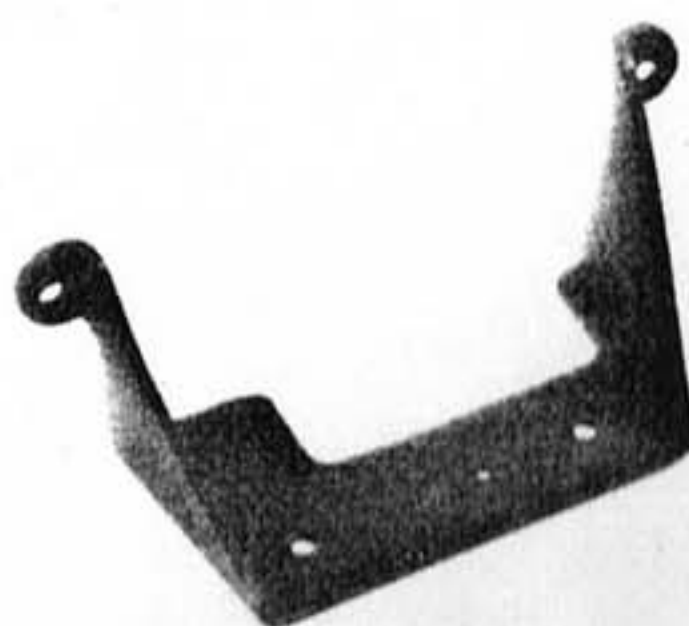

1552/1553/1557 - STUB AXLES - Our direct replacement RC10 front stub axles are hardened and ground to meet racing standards. All have larger leads to reduce breakage and have a T shape to fit Associated steering blocks without modification.
1552 - RC10 FRONT STUB AXLES FOR TAMIYA BEARINGS **\$8.99**
1553 - RC10 FRONT STUB AXLES FOR ASSOCIATED BEARINGS **\$8.99**
1557 - RC10 FRONT STUB AXLES - WIDE TRACK FOR TAMIYA BEARINGS **\$8.99**

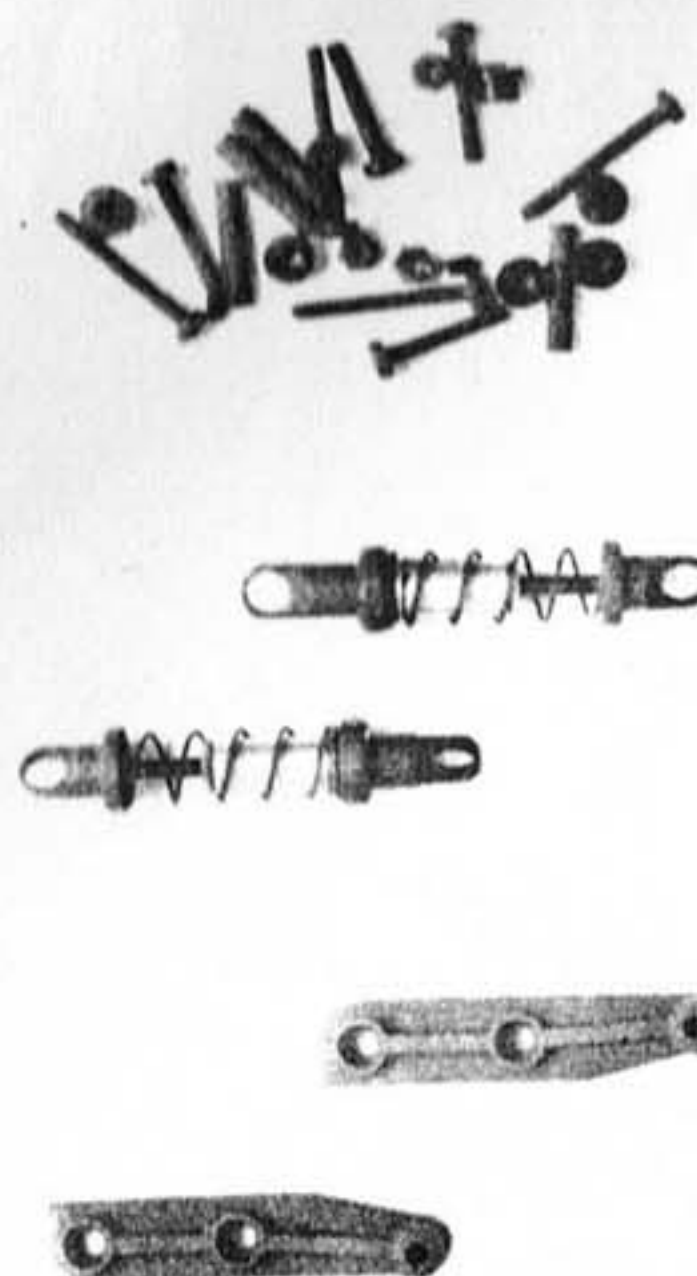

1554 - BIG BEAR STEERING IMPROVEMENT KIT - Replaces stock steering ball ends with heavy-duty heim joints. Reduces the chance of the steering linkage popping off the steering arm. **\$2.99**

1555 - COIL-OVER CLAMPS (SET OF 4) - These replacement adjustable coil-over clamps are made from nylon. Designed to give better clamping to shock cylinder. Fits Associated, Kyosho/Option House and Schumacher Cat. **\$5.99**

1556 - FRONT SHOCK KIT - HORNET, GRASSHOPPER - Now add fully adjustable coil-over suspension to the front of your Hornet/Grasshopper. Eliminates the weak shock towers that are constantly breaking. Comes complete with mounting bracket, shocks, and all hardware. Some modification necessary (drilling 2 holes and trimming off stock shock towers). **Pair \$19.99**
1619 - SHOCK REBUILD KIT **\$4.50**
9107 - REPLACEMENT SPRINGS **\$1.50**
9112 - O-RING KIT **\$1.99**

1601 - FRONT SHOCK KIT - You can now add front shocks and adjustable coil-over suspension to your Frog or Brat. Gives you better handling and control. Kit comes complete with shocks, coil-overs, brackets, and hardware. Fits Blackfoot w/mod to body post. **Pair \$21.99**
 Spare parts sold individually.
1619 - SHOCK REBUILD KIT **\$4.50**
9107 - REPLACEMENT SPRINGS **\$1.50**
9109 - SHOCK MOUNT UPDATE KIT **\$1.50**
9112 - O-RING KIT **\$1.99**
9114 - PLASTIC SHOCK TOWERS **\$3.50**

1602 - REAR ADJ. COIL-OVER - FROG - The springs on the Frog rear shocks are too stiff. This kit comes with two sets of softer springs and adjusting collars for limited adjustment. Also fits Wild One. **\$5.99**

1603 - HEAVY-DUTY STEERING - FROG, BRAT - Replaces the light steering rods with 4-40 stainless rod and special ends to help end the bending problems. **\$6.50**

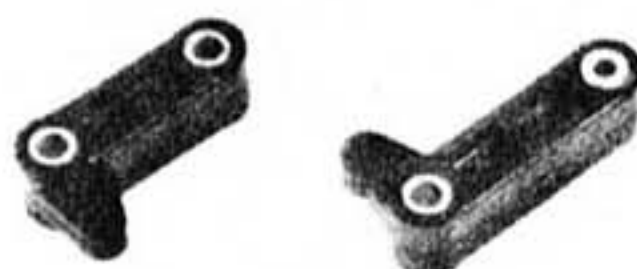

1604 - HEAVY DUTY STEERING - HORNET, GRASSHOPPER - A much stronger steering rod set up to reduce bending problems. **\$4.99**

1605 - REAR AXLES - FROG, BRAT, WILD ONE, FAST ATTACK - These lightweight, injection molded rear axles are stronger than the stock metal axles and don't wear out the ends as easily. Not recommended for Blackfoot or Monster Beetle. **Pair \$3.**

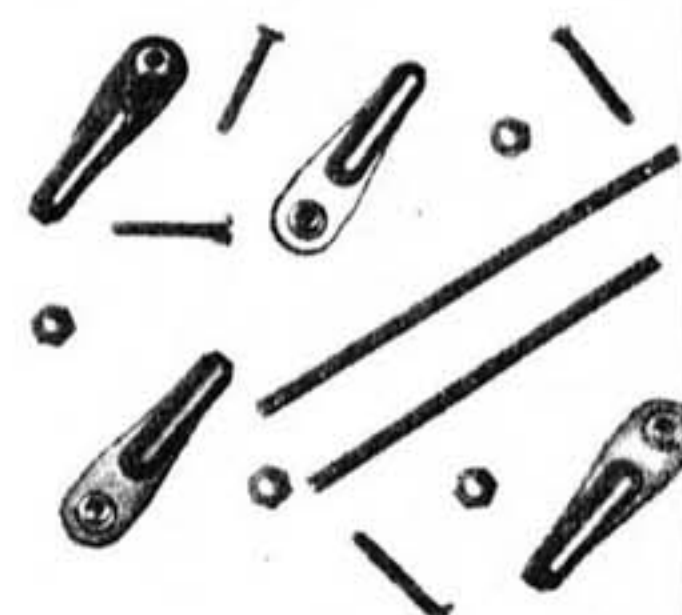

1606 - REAR SUSPENSION SUPPORT - FROG, BLACKFOOT, MONSTER BEETLE - These side supports, with Delrin® center bushing, greatly reduce the wear factor of the rear trailing arms while at the same time give added support and reduce trailing arm flex. **\$9.99**

1607 - FRONT SUSPENSION ARMS - FROG, BLACKFOOT, MONSTER BEETLE - The front suspension arms on the Tamiya Frog and Blackfoot wear quickly and they become sloppy. Ours come with bushings molded into the arms to reduce wear and give longer life. 2 pair needed per car. **Pair \$6.99**

1608 - DIFFERENTIAL BEARING SUPPORTS - FROG, BLACKFOOT, MONSTER BEETLE - Replaces P/N B2 with a tighter fitting support. Reduces up-and-down and side-to-side movement of the differential gears and output shafts. Provides smoother operation. **Pair \$1.99**

1609 - STEERING KIT - FOX, WILD ONE - Replacement steering for Tamiya Fox and Wild One. Eliminates the ball joints that wear and pop off. All hardware included. Also fits Fast Attack. **\$4**

1610 - FRONT SWAY BAR - FOX - Reduces body roll and adds stability. Fits stock Fox with only 2 modifications (trim chassis and drill 2 holes). All hardware included. **\$8.99**

1611/1653 - Fully adjustable coil-overs for Tamiya yellow plastic shocks. Replaces stock spacers.
1611 - ADJUSTABLE COIL-OVERS - FOX, BOOMERANG (SET OF 3) \$5.99
1653 - ADJUSTABLE COIL-OVERS - SUPER SHOT, FALCON, BIG WIG (SET OF 4) \$6.99

1613 - HEAVY-DUTY STEERING KIT - LUNCH BOX - This kit replaces weak steering rod with heavy-duty 4-40 rod and keeps the ball caps from popping off. A necessary upgrade for the serious driver. **\$4.99**

1614 - FRONT A-ARM STABILIZER - FOX - Designed to reduce lateral movement of the upper suspension arms. Provides a smoother suspension. **\$**

1615 - REAR SHOCK BRACKET - FOX - Direct replacement aluminum shock brackets. Mounts stock shocks in higher position to reduce rear axle binding. Also lets you mount longer throw shocks. **\$3.99**

1616 - REAR AXLES - FALCON, STRIKER, FX10 - Direct replacement rear axles for the Falcon, Striker, and FX10. Injection molded from stronger plastic. Reduces axle twisting and breakage. **Pair \$4.99**

1617 - STEERING KIT - BLACKFOOT, MONSTER BEETLE - This steering kit contains a heavy-duty servo saver along with heavy-duty 4-40 rod and heim joints. Eliminates servo saver breakage. Mounts to all popular servos. **\$12.99**

1618 - SPINDLES - BLACKFOOT, MONSTER BEETLE - These direct replacement spindles replace the breaking K1 and K8 stock spindles. Injection molded from higher-impact plastic, so they are beefier and stronger than stock. Mounts in stock location with no modification. **\$**

CHASSIS SUPPORT/FRONT
FALCON - This part is
 to reduce breakage on the
 front end of your Falcon,
 mounting a Kydex® front
\$6.99

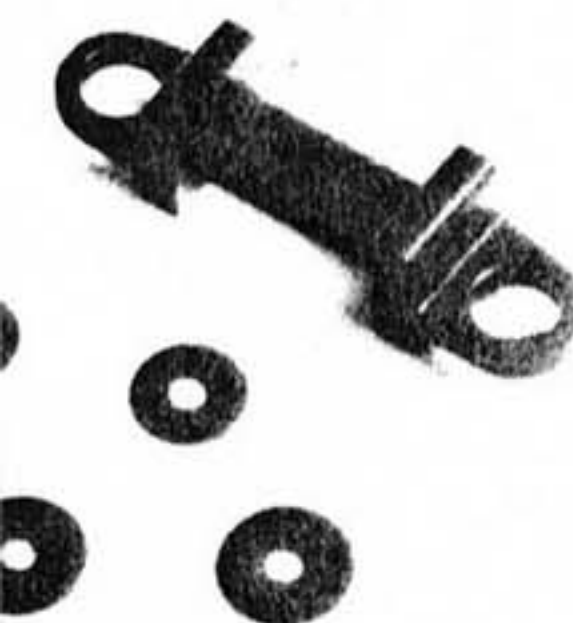

1621 - FRONT STEERING ARMS -
TAMIYA - These heavy-duty plastic
 steering arms replace the ever
 breaking stock arms. Arms press on
 and off metal spindles for ease of
 replacement. **Pair \$4.99**

1622 - REAR SHOCK MOUNTS -
BLACKFOOT, MONSTER BEETLE,
FROG - These shock mounts allow
 you to mount the shocks in stock
 position, without the worry of shock
 mount flex and breakage because they
 mount to the car in 3 places. **\$4.50**

NEW RELEASE

1623 - REAR BODY MOUNTS -
BLACKFOOT - This heavy-duty rear
 body mount contains 2 extra body
 mount braces that attach to #1622, to
 prevent forward and backward
 movement of the body mount posts.
 Kit also contains 2 heavy-duty upright
 posts. Made of plastic, this part is
 designed for strength. **\$5.50**

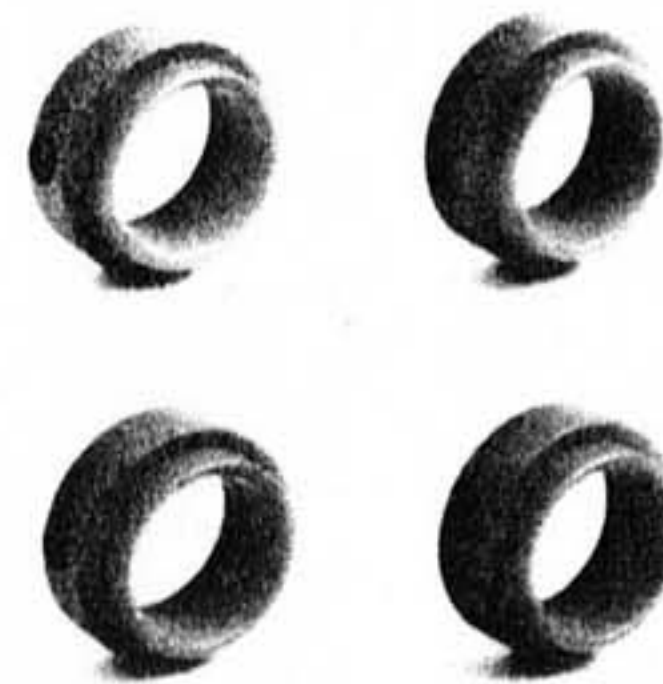

ARM STABILIZER - Use of
 reduces lateral movement on
 upper suspension arms.
 injection molded Delrin®.
 Shot, Super Shot, Big Wig,
 ang, Hot Shot II,
 abre. **\$2.99**

1709 - FRONT SHOCK MOUNT -
OPTIMA - New replacement fiberglass
 front shock mount designed so you
 can mount Associated RC10 and
 Option House short shocks to your
 Optima. No modification necessary.
 Also works with stock shocks. **\$3.99**

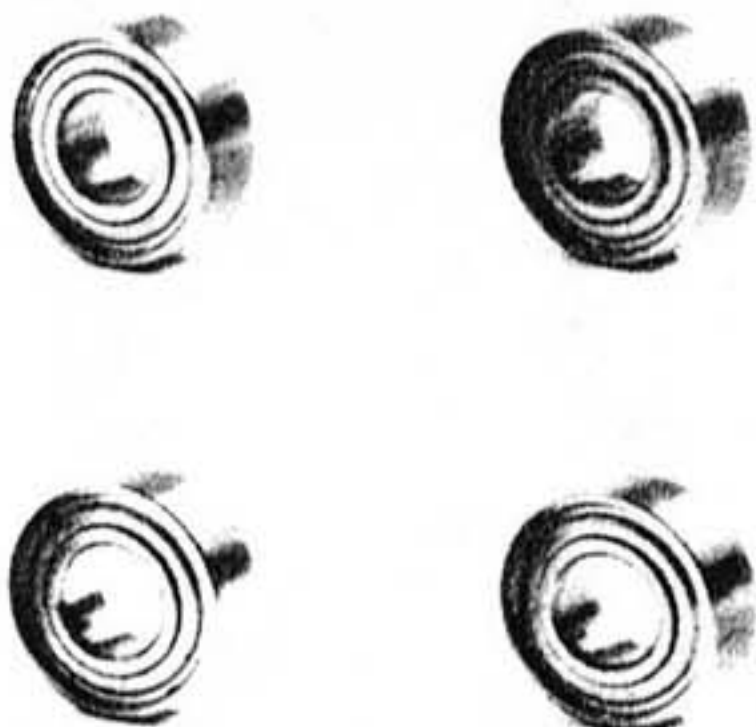

1710 - REAR SHOCK MOUNT -
OPTIMA - Replacement fiberglass rear
 shock mount designed so you can add
 Associated RC10, Option House long
 shocks or Tamiya long plastic shocks
 to your Optima. No modification
 necessary. Does not work with stock
 shocks. **\$6.99**

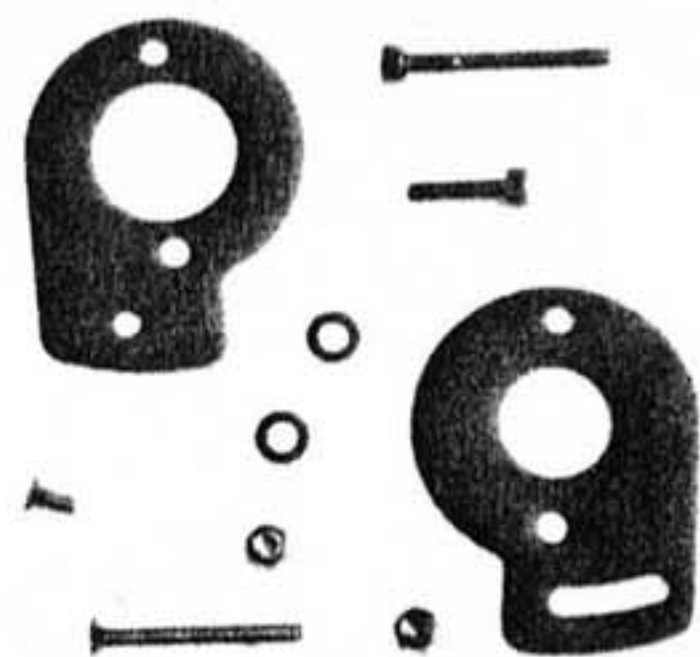

1711 - ADJ. COIL-OVER COLLARS -
OPTIMA (SET OF 4) - Replacement
 coil-over collars for stock Optima
 shocks. Replaces plastic clamps,
 which break, with aluminum collars.
 Also fits Assault, Turbo Scorpion,
 and Ultima. **\$6.99**

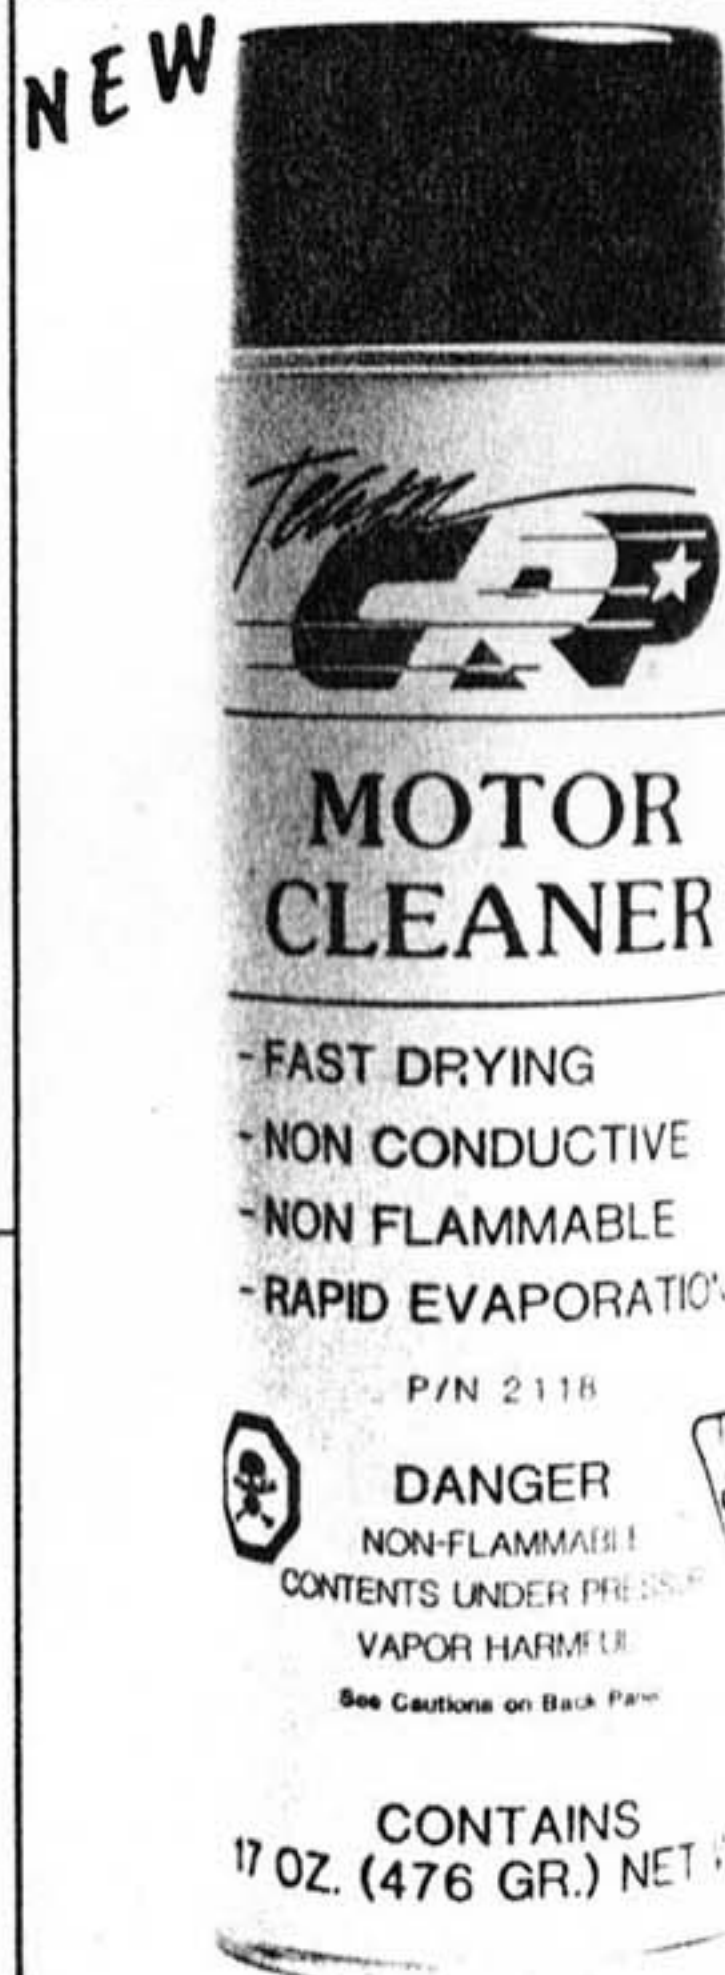

02 - BRASS GEARS -
 s plastic gears in the Tamiya
 F-150, SC gear case. Made of
 and narrower than stock to cut
 and weight.
LARGE BRASS GEAR \$17.99
SMALL BRASS GEAR \$7.99

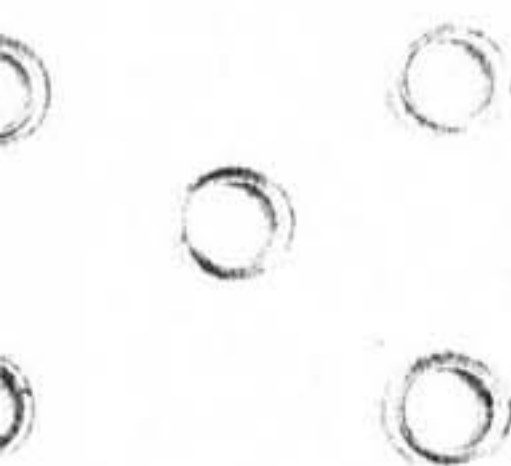

2103 - TAMIYA BALL BEARINGS -
(SET OF 4) - 5 x 11 ball bearings.
 Used in all Tamiya off-road
 buggies. **\$12.99**

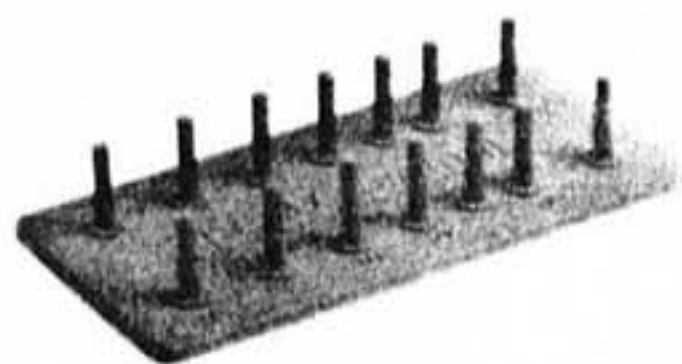

2107 - ADJUSTABLE MOTOR MOUNT
- FROG, BLACKFOOT, MONSTER
BEETLE - With this adaptor you can
 use different pinion gears without
 changing the gears inside the gear
 case, allowing a wider range of gear
 ratios. **\$3.99**

2118 - MOTOR CLEANER - Clean the
 dust and dirt out of your motor so
 you receive peak performance. Can
 holds 17 ounces of contents in spray
 form. **\$7.99**

16 - (850) BEARINGS -
 s the small plastic bushing and
 ushings in the gear case with
 ll bearings.
5 PER PACKAGE - HS, SS,
BIG WIG, BOOMERANG,
HSII \$26.99
2 PER PACKAGE -
WILD ONE, HORNET, GRASS-
HOPPER \$10.99

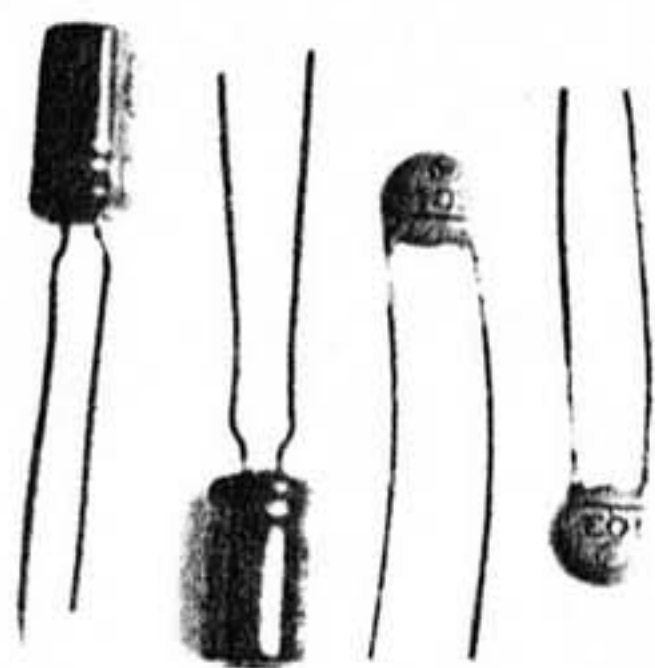

2117 - PINION GEAR ORGANIZER -
 Now a small handy pinned tray that
 keeps your pinion gears within easy
 reach. Comes with prenumbered posts
 which allow for ease in selecting the
 correct pinion gear needed. Plate
 holds up to 14 gears. **\$4.50**

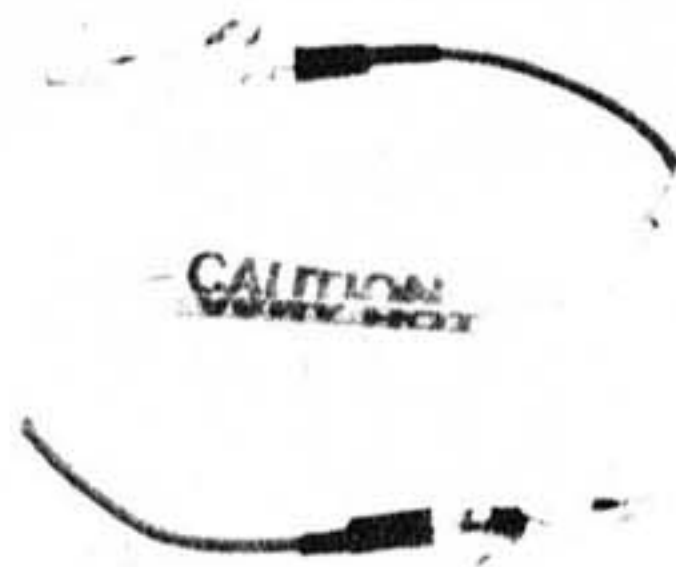

2119 - BEARING CLEANER - Soak
 your bearings in a little cleaner to get
 all of the grease and grime out, and
 make them run more smoothly. Also
 works great for metal parts cleaning.
 Half-pint container (8 ozs.). **\$6.99**

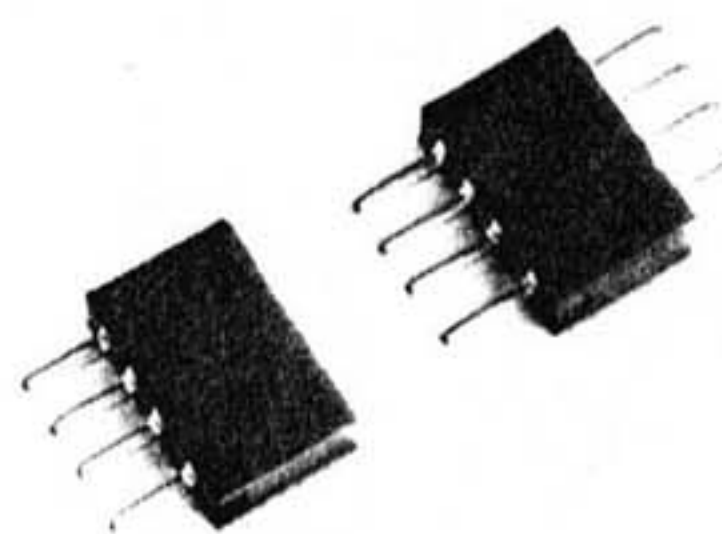

"Quality" — the difference between fun & frustration

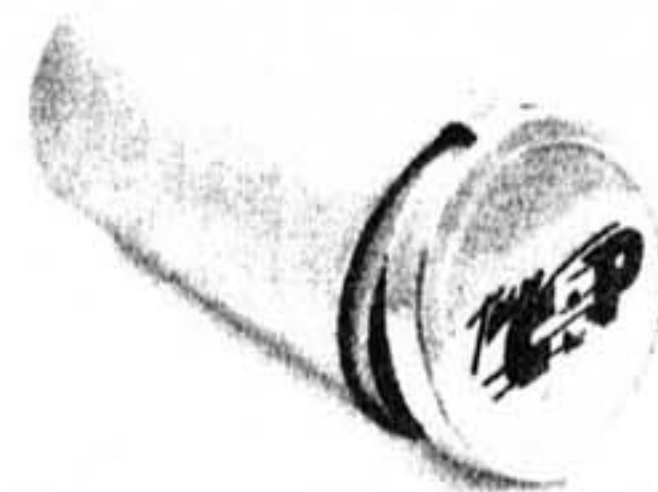

2150 - MOTOR CAPACITORS - Two pair of motor noise capacitors for use on all electric R/C cars. **\$1.99**

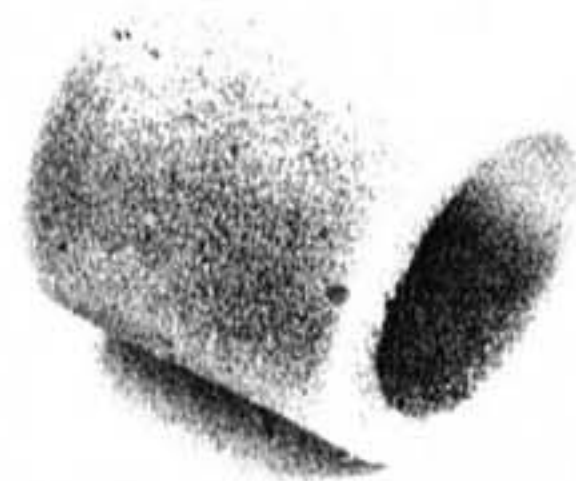

2152 - BATTERY DISCHARGE RESISTOR - Used to totally discharge your 6- or 7-cell Ni-Cad battery pack. Erases memory. Batteries last longer, run longer. Prewired, ready to use. **\$3.99**

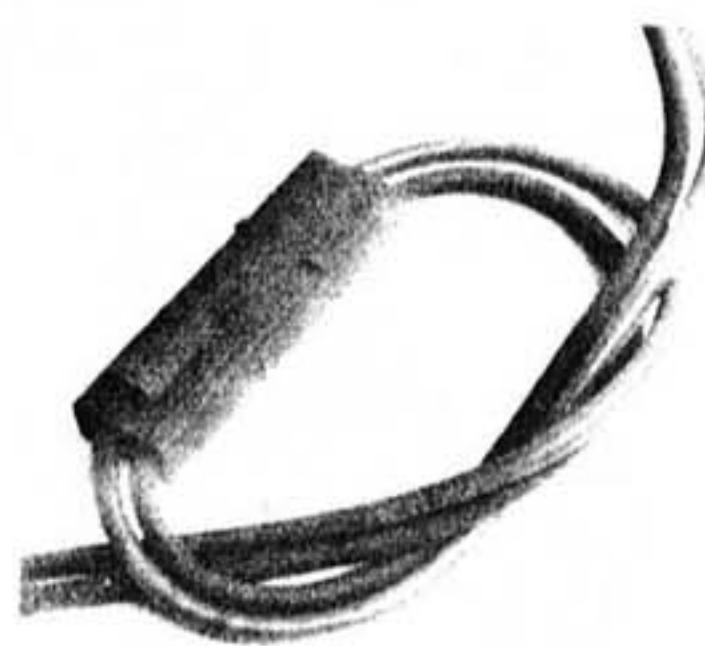

2154 - MOTOR/BATTERY CONNECTOR - One pair of Deans' 4-pin connectors. **\$2.50**

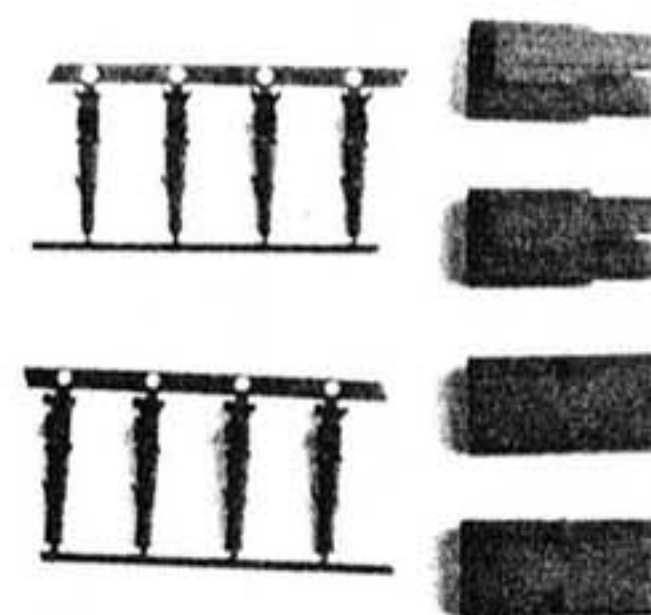

2157 - MOTOR TUBE - Helps keep your electric motors from being damaged when stored in your toolbox. Keeps out unwanted dirt and other foreign objects that may damage your motor. **\$1.50**

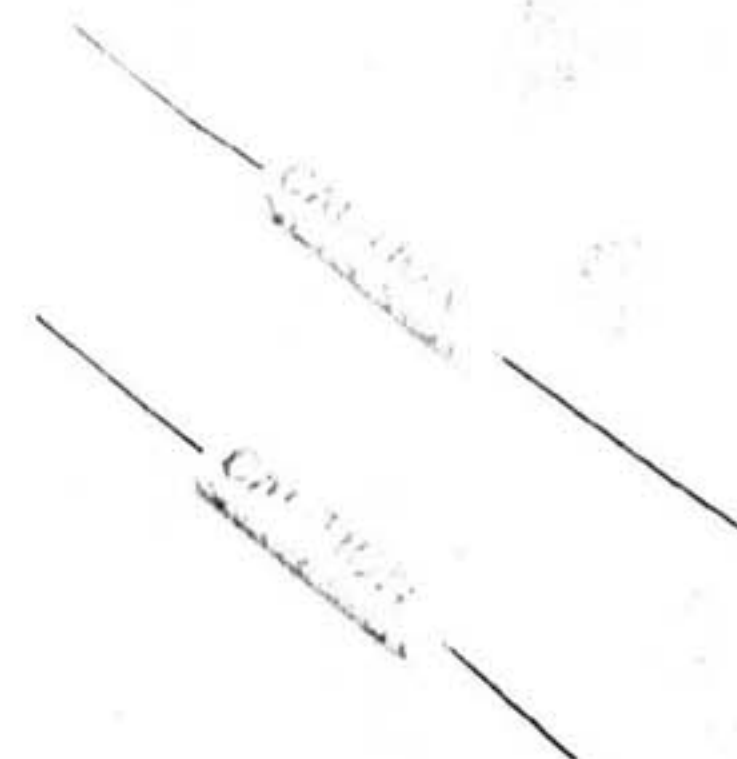

2158 - MOTOR END BELL COVER - FOAM - This all-foam cover allows your motor to "breathe," while keeping out unwanted dust and dirt. Does not trap hot air like plastic covers. **\$1.99**

2159 - BATTERY CONNECTOR - TAMIYA STYLE - Prewired Tamiya style connector. Comes with 1 male and 1 female plug. Can also be used as a motor connector. **\$2.25**

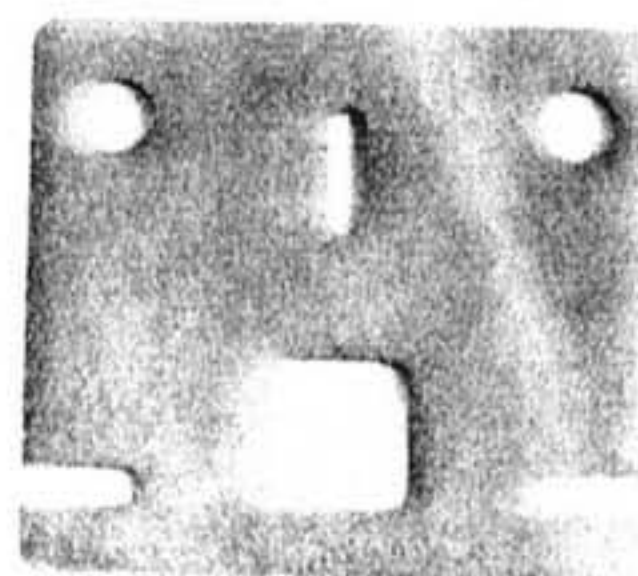

2160 - TAMIYA STYLE CONNECTORS - UNASSEMBLED WITH PINS - For motor or battery use. 2 pair. **\$2.25**

2161 - DISCHARGE RESISTORS - 2 discharge resistors that come without connectors so you may adapt your own plugs to match your battery packs. Use CRP 2154, 2159, or 2160 connectors. **\$1.50**

2162 - SHRINK TUBING - Each package contains eight 4-inch long pieces of shrink tubing, four 3/16" red, and four 1/8" black, for all your shrink tubing needs: motor and battery wires, receiver wires, etc. **\$3.99**

2163 - RESISTOR PLATE/3-PRONG - Direct replacement resistor plate replaces weak pressed fiber or thin fiberglass plate. Fits all Tamiya cars using 3-prong speed control resistor. **\$1.99**

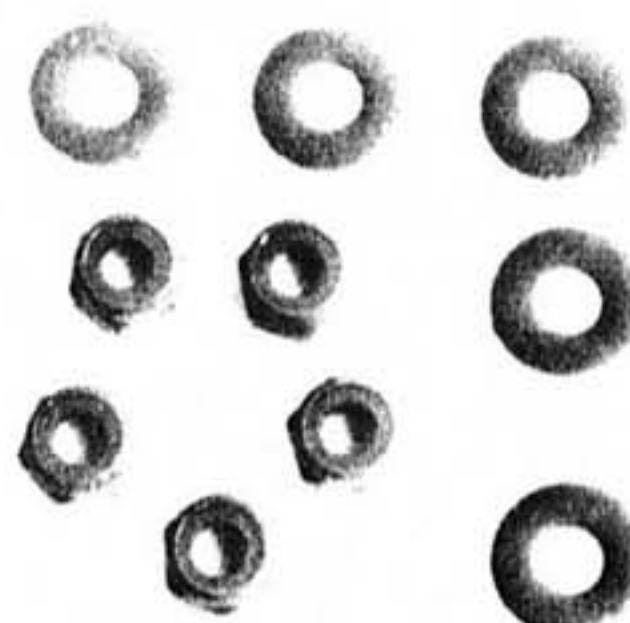

2501 - METRIC SCREW SET - Contains 3 each allen screws: 3mm x 6, 3mm x 10, 3mm x 18. Pan head 3 each: 3mm x 10, 4mm x 10. Six 3mm flat washers. **\$2.99**

2502 - METRIC NUT SET - Four 3mm lock nuts, eight 3mm standard nuts. **\$1.50**

2503 - METRIC ALLEN SET SCREWS - Contains two 5 x 5mm and six 3 x 4mm set screws. **\$1.99**

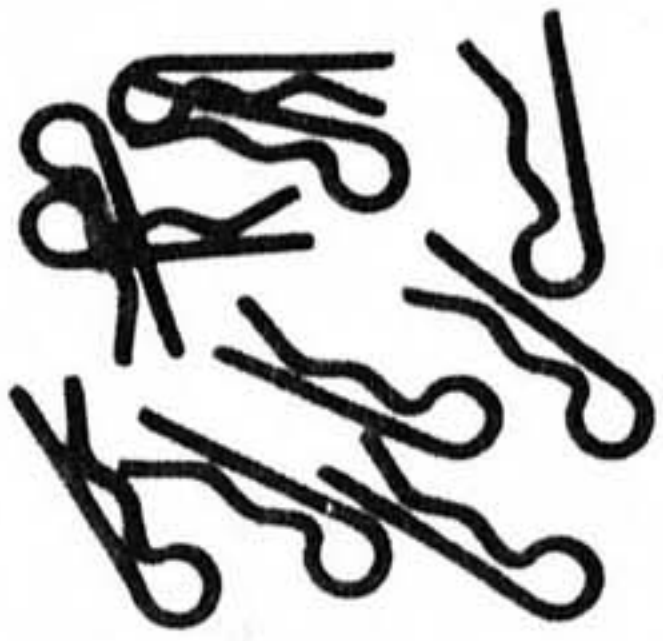

2504 - METRIC AXLE NUTS - 5 replacement nylock axle nuts and 4mm washers. They get lost or wear out. Carry spares. **\$1.50**

2505 - LONG METRIC SCREW SET - Contains six 3mm x 20 allen screws, four 3mm nylock nuts and two 3mm standard nuts. Ideal for the job that needs a longer screw, such as shock mounts and gear case. **\$2.99**

2506 - METRIC ALLEN WRENCHES - Replaces the soft wrenches that come in the kit. 1.5, 2, 2.5mm. **\$1.50**

**2507 - BODY POST CLIPS -**

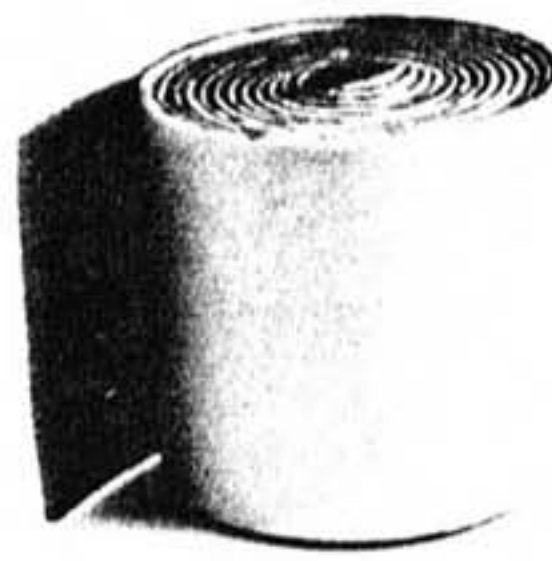

Package of 10 replacement body post clips. **\$1.50**

2511/2522 - These handy cable ties are a must for any serious racer. Too many uses to list.

2511 - 8-4", 8-5.5", 6-8" asst. **\$2.50**

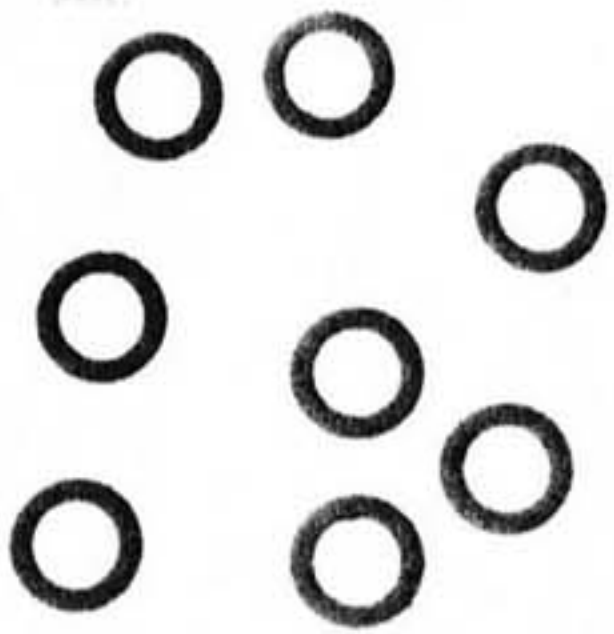

2522 - 20-4" **\$1.50**

2512 - SERVO TAPE - We feel we have the best servo tape available. 1/32" thick x 1-1/4" wide x 3' long. Holds the servos and receivers tight. When you remove the radio gear, simply roll excess off with your thumb. **\$2.50**

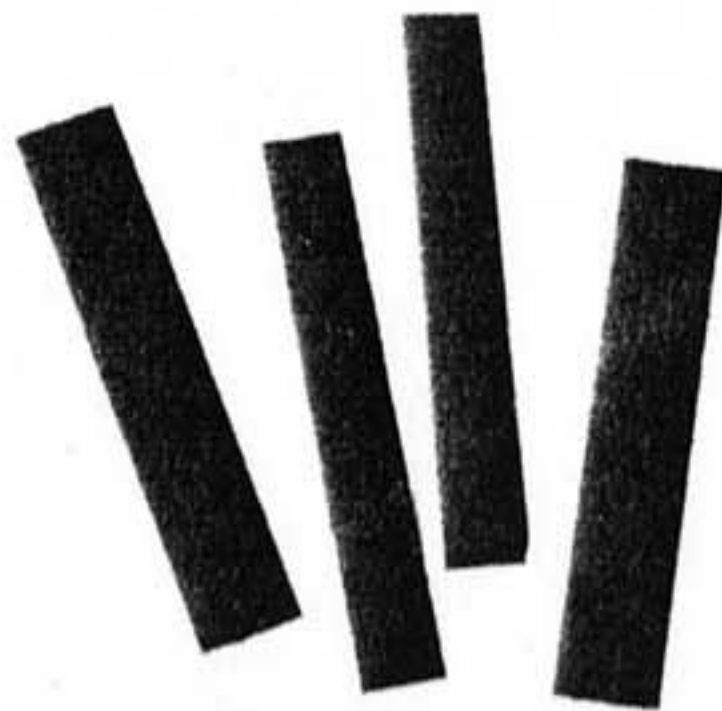

2514 - 2-56 SCREWS - Two 2-56 x 1/4", four 2-56 x 3/8", four 2-56 x 1/2", and eight 2-56 nuts. These are handy replacements for any after-market steering. **\$1.50**

2516/2517 - SHIMS - These shims can be used to shim your gear cases or 5mm shafts. **\$1.99**

2516 - .010 SHIMS (8 per bag) **\$1.99**

2517 - .015 SHIMS (8 per bag) **\$1.99**

2518 - SELF-STICK VELCRO® - Use to attach your body to radio box. Both sections are self-stick Velcro®. **\$2.50**

2519 - RADIO BOX VELCRO® - Designed to replace the awkward cam locks on Tamiya radio boxes. **\$2.50**

2521/2524 - SHIMS - These shims, when added to your suspension, reduce excessive play. Provide smoother movement. **\$1.99**

2521 - FROG, BLACKFOOT, MONSTER BEETLE (20 per package) **\$1.99**

2524 - FOX, HS, SS, HSII, BIG WIG, BOOMERANG, FALCON (16 per package) **\$1.99**

2523 - BATTERY DOOR CLIP - FROG, BLACKFOOT, MONSTER BEETLE - New clip has an extended tip and a finger tab for ease of removal. **\$1.50**

2525 - 3MM X 20 UPRIGHT PIVOT PINS - These direct replacement pins are used on the front suspension of the Grasshopper (P/N B2), Hornet, FAV, and Wild One. They are used to attach the front upright to the suspension arms. 4 per package. **\$1.99**

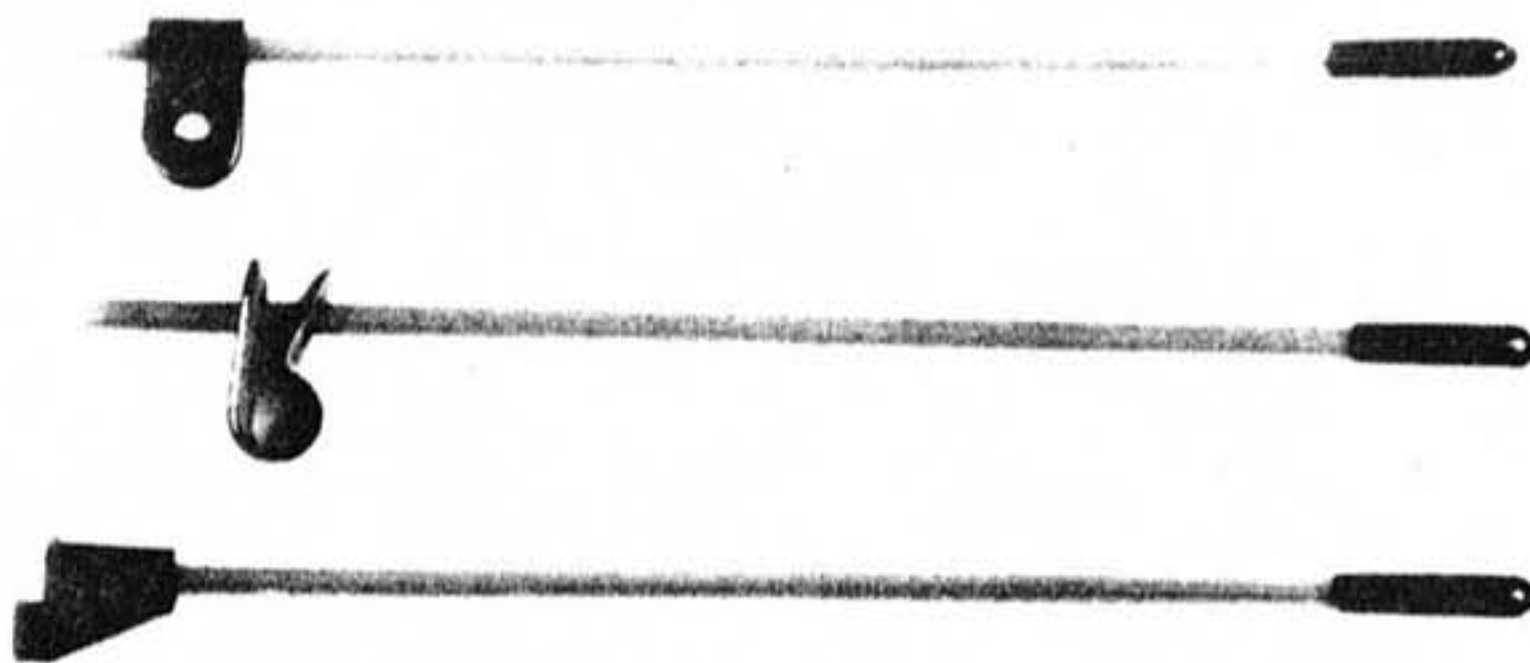

2526 - 4-40 ALL-THREADED ROD - Can be used for customizing your own steering kits or for use in all modeling projects that require steel all-threaded rod. Contains six 9" lengths per package. **\$5.99**

2527 - REUSEABLE TIE WRAPS - These removable, reusable ties can be used for mounting batteries or any other equipment that needs to be removed quickly and easily. 8 pieces. **\$1.99**

**3010 - POLY-FLEX FRONT**

BUMPER - Our Poly-Flex front bumper is designed to fit all widths of front ends. Made of 1/8" Kydex®, this bumper is flexible to absorb shock and protect your car. Tamiya RR, SS, 150, SC. **\$5.99**

3013/3021/3023 - ANTENNAS - Our antennas allow you to meet your specific needs. Using the proper way to route your Rx wire. 12" tube w/cap and mounts. **\$1.00**

3013 - CLAMP-ON **\$1.50**

3021 - CHASSIS MOUNT **\$1.99**

3023 - FROG, BLACKFOOT, MONSTER BEETLE **\$1.50**

9115 - REPLACEMENT CAPS (10) **\$1.00**

3030 - RC10 FRONT BUMPER -

A must for racing or just playing around. PROTECTS FRONT SUSPENSION. Injection molded and designed to fit without modifications. **\$5.50**

4111 - 1-PIECE FRONT WHEEL - FOX, WILD ONE - Direct replacement front rims are dyeable to your color preference. Instructions included for dyeing procedure. *47* Pair \$

4112 - TAMIYA WHEEL ADAPTOR TO RC10 FRONT (SET OF 4) - These spacers allow you to mount Tamiya 1-1/2", 1-3/4", and 2-1/8" front rims to the front of your RC10, using the stock RC10 front wheel bearings. **Pair \$1.99**

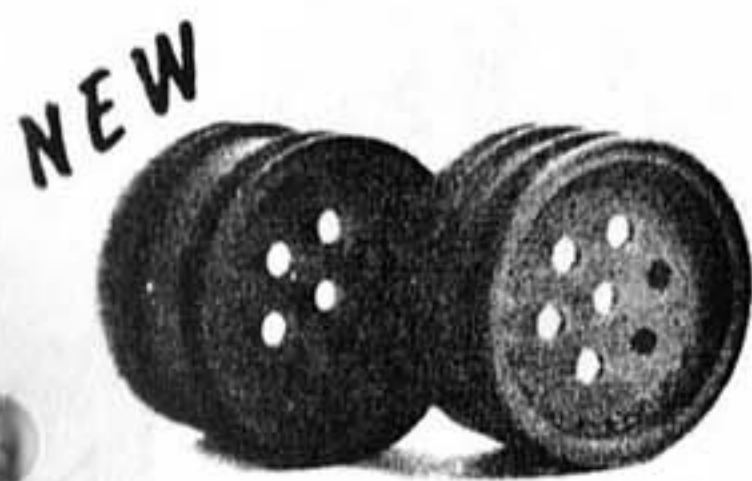

4113 - 1-PIECE RC10 REAR WHEELS - All new 1-piece rear rim for your RC10. Lighter than stock. Allows you to mount a larger variety of tires. Dyeable to color preference. Instructions included. **Pair \$6.99**

4114 - WHEEL ADAPTOR - HOT SHOT TO OPTIMA/ULTIMA - This adaptor enables you to mount Hot Shot or CRP #4116, 4117 rims and tires to the Kyosho cars that have the hexagon drive washers, allowing use of a greater variety of tires. **Pair \$3.50**

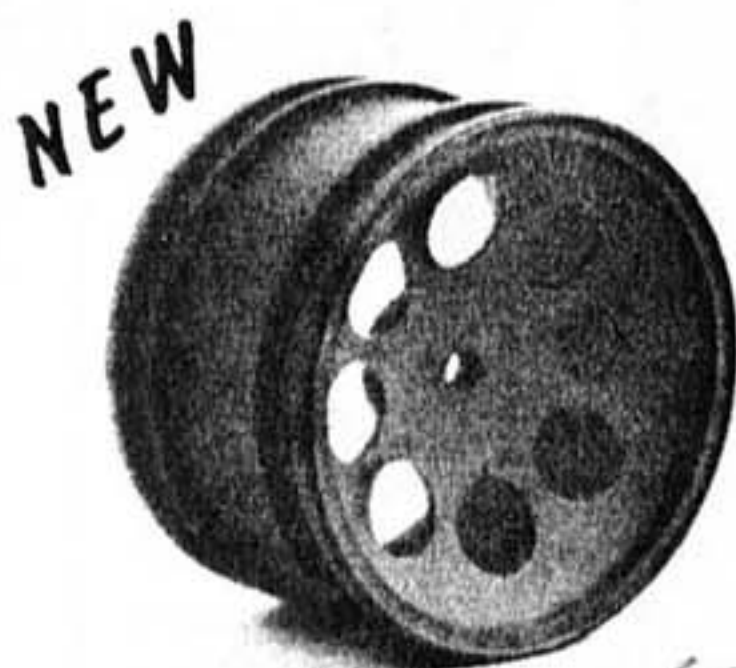

4115 - WHEEL ADAPTOR - KYOSHO, COX - Designed to allow you to use Tamiya tires and wheels on the front of the Kyosho car. Fits Scorpion Turbo Scorpion, Tomahawk, Advance Ultima. **Pair \$1.00**

4116 - 1-PIECE FRONT WHEELS
4117 - 1-PIECE REAR WHEELS

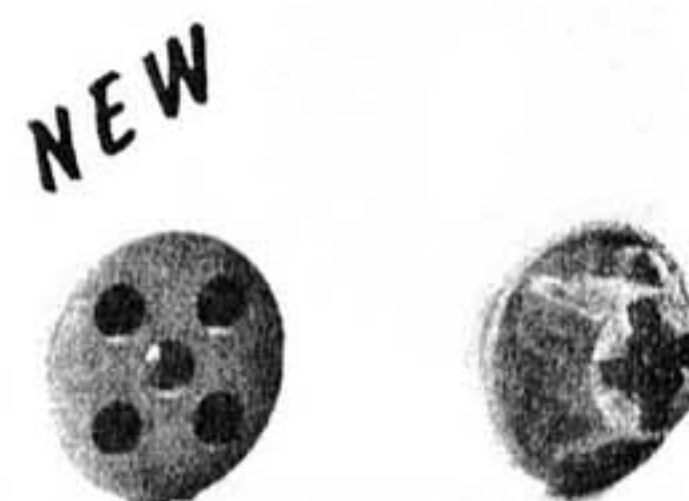

These front and rear wheels are dyeable to your color preference. They fit the Hot Shot, Super Shot, Boomerang, Big Wig, and Hot Shot II. **Pair \$6.99**

4118 - 1-PIECE KYOSHO WHEELS - This dyeable wheel fits all Kyosho cars with hexagonal hubs. **Pair \$6.99**

4119 - 1-PIECE REAR WHEELS - Now a dyeable 1-piece rim for the Fox, FX10 Falcon, Striker, Wild One. **Pair \$6.99**

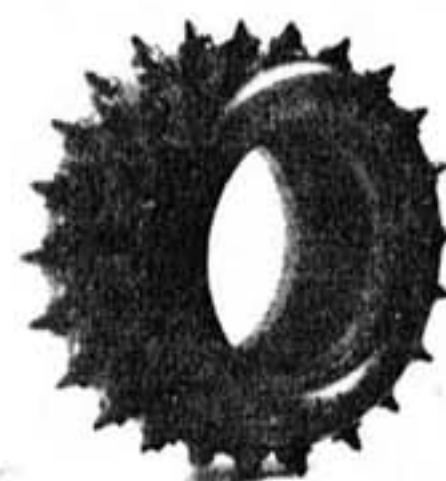

4120 - REAR WHEEL ADAPTOR - FOX REAR TO RC10 REAR - Use of this adaptor lets you mount Fox stock rear rims or CRP #4119 to the rear of your RC10. **Pair \$3.50**

4121 - REAR WHEEL ADAPTOR - FOX REAR TO FROG REAR - These adaptors allow you to mount CRP #4119 or Fox rear wheels and tires on the rear of your Frog, Hornet and Grasshopper. **Pair \$2.99**

4211 - CRP/DYNAMITE HOT SHOT FRONT TIRES - Direct replacement spiked tires for the front of your Hot Shot. Fits CRP #4116 wheels. Also fits Super Shot, Big Wig, Boomerang and other 1.9" dia. wheels. **Pair \$9.99**

4212 - CRP/DYNAMITE FOX, HOT SHOT REAR TIRES - Direct replacement spiked tires for the rear of your Hot Shot. Fits CRP #4117, 4118, 4119 wheels. Also fits the Wild One, Fox, Hot Shot, Super Shot, Big Wig, Boomerang and other 1.9" dia. wheels. **Pair \$9.99**

4213 - CRP/DYNAMITE TAMIYA REAR TIRES - Direct replacement spiked tires for the rear of your Frog, Hornet, Grasshopper, Super Champ. Fits 1-1/2" dia. rims. **Pair \$9.99**

4214 - CRP/DYNAMITE RC10/YOKOMO TIRES - Direct replacement spiked tires designed to fit any 1-3/4" dia. glue-on rims. Yokomo, Twinn-K, Bolink, Parma. Mounts directly to RC10 and CRP #4113. **Pair \$9.99**

4216 - CRP/DYNAMITE FRONT TIRES - SPIKED - New spiked front tire gives you that added traction for tighter turns. Fits any 1-1/2" dia. Tamiya front wheel. Frog, Hornet, Grasshopper, Super Champ. **Pair \$8.50**

4217 - CRP/DYNAMITE FRONT TIRES - SMOOTH - Replacement smooth front tire designed to fit any 1-1/2" dia. Tamiya front wheel. Frog, Hornet, Grasshopper, Super Champ. **Pair \$8.50**

4220 - CRP/DYNAMITE COMBINATION FRONT TIRES - New combo tread pattern. When spiked is too much traction and smooth is not enough. Fits 1-1/2" dia. Tamiya front rims. Frog, Hornet, Grasshopper, Super Champ. **Pair \$8.50**

4221 - CRP/DYNAMITE ON-ROAD REAR TIRES - Wide, grooved, slick rear tire. Made of soft rubber. Allows you to run your 1/10 scale off-road car on asphalt. Fits 1-1/2" dia. rear rims. Fits the Frog, Hornet, Grasshopper, Super Champ. **70- Pair \$9.99**

4222 - CRP/DYNAMITE FRONT TIRES - FOX, WILD ONE - Tread is ribbed with spikes for medium to low traction requirements. Mounts on stock rim or CRP #4111 wheels and fits 2.0" dia. wheels. **Pair \$8.99**

4223 - CRP/DYNAMITE FRONT TIRES - FOX, WILD ONE - Spiked tread for medium to high traction requirements. Use stock rim or CRP #4111 and other 2.0" dia. wheels. **Pair \$8.99**

4224 - CRP/DYNAMITE REAR TIRES - SUPER SPIKE - Get the most traction your car can give. These tires fit Tamiya 1-1/2" dia. rear rims. Frog, Hornet, Grasshopper. **70- Pair \$9.99**

4225 - CRP/DYNAMITE REAR TIRES - SUPER SPIKE - These tires give you more traction for those high-traction needs. Fits rear of RC10 and CRP #4113 rear rim. Also fits Yokomo and Yokomo SE rims. **70- Pair \$9.99**

4226 - CRP/DYNAMITE FRONT TIRES - ROUND SPIKE - Use round spiked front tires on your 4wd cars, for traction on soft dirt tracks. Use CRP #4116 rims. Also fits Hot Shot, Boomerang, Big Wig, Mini Mustang, Super Shot, H.S. II, Super Sabre and other 1.9" dia. wheels. **70- Pair \$9.99**

4227 - CRP/DYNAMITE REAR TIRES - ROUND SPIKE - Round spikes give added traction for running on soft dirt tracks. Use CRP #4117, 4118, & 4119 rims. Fits Hot Shot, Boomerang, Big Wig, Wild One, Fox, Mini Mustang, Turbo Optima, Ultima, Super Sabre, Super Shot, H.S. II, and other 1.9" dia. wheels. **70- Pair \$9.99**

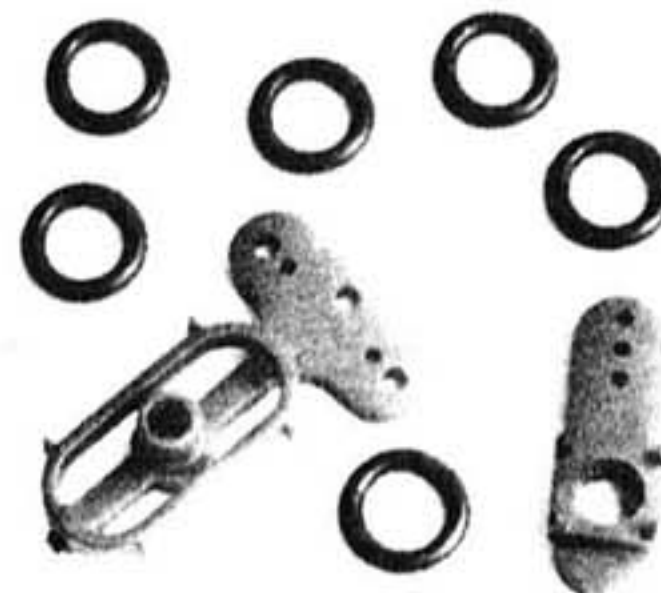

4228 - CRP/DYNAMITE REAR TIRES - LOW PROFILE - These low profile spiked tires reduce sidewall flex giving better traction. Use CRP #4117, 4118 & 4119 rims. Fits Hot Shot, Fox, Wild One, Boomerang, Big Wig, Mini Mustang, Turbo Optima, Ultima and other 1.9" dia. wheels. **70- Pair \$9.99**

4229 - CRP/DYNAMITE REAR TIRES - CIRCLE TREAD - Universal tread pattern for on-road/off-road use. Fits CRP #4117, 4118, and 4119 rims. Also fits the Boomerang, Big Wig, Mini Mustang, Turbo Optima, Ultima, and other 1.9" dia. wheels. **70- Pair \$9.99**

9102 - HI-TEMP WIRE - Three feet of black and three feet of red. Excellent for wiring batteries and speed controls. Very flexible. **\$3.50**

9106 - SERVO SAVER FOR "QUICK-STEER" - Replacement servo saver and six O-Rings for RC10. **\$2.50**

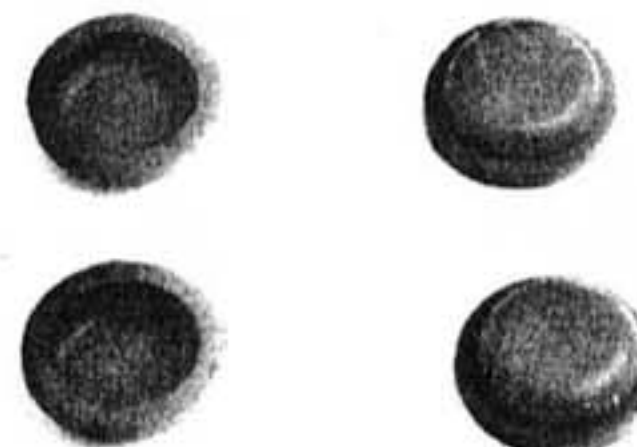

9108 - BALL CAPS FOR 1603 - Replacement ball caps for 1603 Frog steering. Can also be used in Associated RC10. Contains 6 caps and 2 balls. **\$3.99**

9110 - RC10 SERVO SAVER O-RINGS - Used to tighten servo saver action on the RC10. Two O-rings used per servo saver. Fit between extended tips on both sides of pivot section. 8 per package. **\$1.50**
