RETROSPECT AND PROSPECT...THE BRIEF OF THUNDER TIGER

THE TIME TO SAY THANK YOU

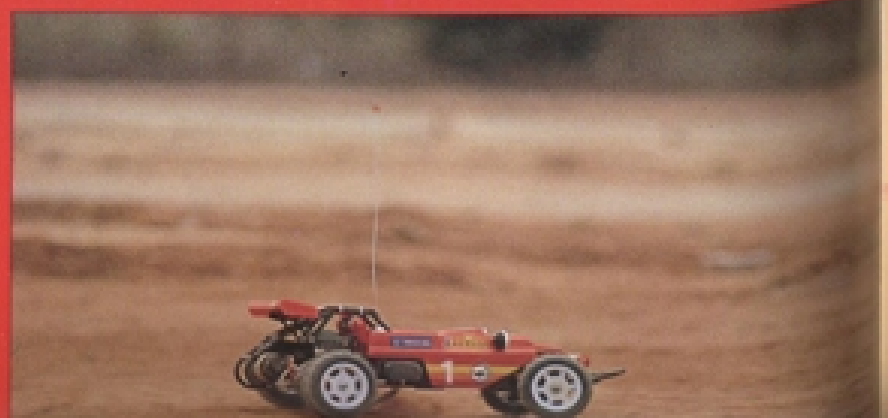

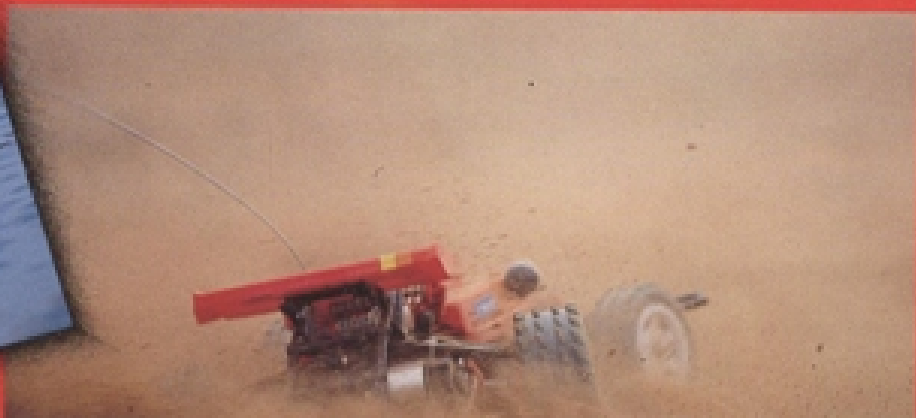

The most reliable... Thunder Tiger. We want to express our sincere appreciation for your encouraging us to do a better job and making our success possible.

In 1975, the Thunder Tiger Model Shop was opened by Gerry Lemieux and Aling Lai. Then they invested US\$75,000 to set up Thunder Tiger Model Co. in 1978 and started to export. Thunder Tiger needed more space to obtain perfect production & management, so in 1985, a big move came to the present location-Taichung Industry Park. Meanwhile, the 'Silver Fox' won the 'Good Product Design Award'. And the company changed the organization that Tony Liao became Chairman and Aling Lai, President.

1986 was a pivotal and challenging year. Again, the capital was increased to US\$700,000. With automatic conveyer, CNC machine, and computerized management, the production was accelerated, and the sales was extended to 36 countries. In the meantime, the 'Tiger 4WDS' won the 'Excellent Product Design Award'. Then came the big honor Thunder Tiger won the 'One of Ten Finest Outstanding Factories and Mines Award' held by Chinese National Federation of Industries.

To increase our production capacity, we decide to expand production space to over 40,000 sq. ft. As usual, we will always do our best to contribute to the community and you for the patronage of our very existence. At the same time, we sincerely hope to have your continually support and advice. Our thanks goes to you!

四輪傳動越野競賽沙灘車 FOUR WHEEL DRIVE OFF ROAD RACING BUGGY

SILVER FOX

4wd

$\frac{1}{8}$ SCALE RADIO CONTROL
OFF ROAD RACING BUGGY

NO. 399

乃是針對追求最高性能的越野賽車選手而設計。不須另購額外配件，它就是新時代中從最激烈的競賽脫穎而出的王者。

The Silver Fox is just the right design for those competition drivers who have dreamed of a perfect off road racer. It is going to be the hottest racing champion in this season, without any optional parts to purchase.

● 長度 LENGTH/512mm

● 寬度 WIDTH/294mm

銀狐 NO. 399

1/8比例遙控越野競賽沙灘車
使用19—21引擎及2頻道遙控器。

銀狐乃是針對追求最高性能的越野賽車選手而設計。不須另購額外配件，它就是新時代中從最激烈的競賽脫穎而出的王者。

- 四輪傳動，確保最佳的方向性和操縱性。
- 四輪獨立懸掛，配合油壓避震器和可調整的彈簧，貼地性特佳，跳躍落地更是平穩。
- 長行程的前後輪臂及多項主要零件均以纖維強化尼龍製成，具有最大的強度和低重量。
- 前後輪均有差速齒輪箱，並以強韌的滾子鏈條傳達動力。
- 方形斷面的鋁合金大樑和焊接完成的鋁桿車架，堅固而耐衝擊。
- 專用的消音器及油箱均包括在套件內。
- 可靠而動作確實的碟式剎車。

THE SILVER FOX NO. 399

1/8 BUGGY RADIO CONTROL OFF ROAD RACE CAR
19-21 ENGINE 2 CHANNEL RADIO

The Silver Fox is just the right design for those competition drivers who have dreamed of a perfect off road racer. It is going to be the hottest racing champion in this season, without any optional parts to purchase.

- Four wheel drive for sure traction and best handling characteristics.
- Independent suspension on four wheels working with adjustable coil spring and oil damper for sure-footed running and for stable landing from jump.
- Long-traveling trailing arm and major components all made of fiber glass reinforced nylon to keep the best strength and light weight.
- Two differential gear boxes included at both front and rear wheel and a strong roller chain connection.
- Square section aluminum chassis and pre-welded aluminum frame for toughness and crash protection.
- Special use muffler and fuel tank included.
- Disc brake for fast stop and durability.

JOIN THE GOLD RUSH.

THE SILVER FOX GOLD EDITION.

Varicom's Silver Fox launches you into the high performance dimension of offroad radio control.

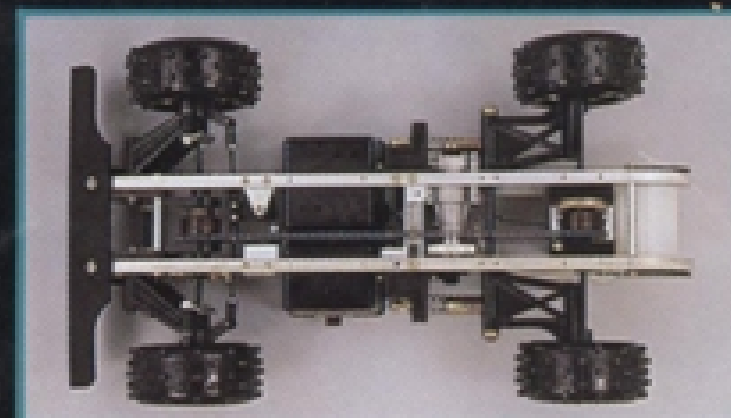

Big, 1/8 scale, 4WD design harnesses .19-.21 engine power while full competition, coil-over shocked, independent suspension handles the tough terrain.

OFFROAD R/C AT ITS BEST!

With the Gold Edition Silver Fox you have the freedom to take on the great outdoors...no stopping to recharge every 5 minutes. Race-engineering and high quality hardware keep the Silver Fox running at incredible speeds.

HIGH PERFORMANCE FEATURES:

- Four wheel drive for maximum traction and response on dirt, mud or sand.
- Four wheel independent suspension with adjustable, coil-over, oil-damped shocks for optimum handling and jumping.
- Long-travel, trailing arm suspension components molded from fiberglass-reinforced nylon for extra strength and reliability.
- Square-section aluminum alloy main chassis and pre-welded alloy roll cage and frame provide added strength and stiffness.

Sealed front and rear differentials linked by a rugged, roller chain.

SPECIFICATIONS

Length	524mm	Brake.....	Disc
Width	294mm	Front suspension.....	Independent;
Height.....	187mm		double trailing arms with
Wheelbase.....	315mm		coil-over shocks.
Ground Clearance.....	40mm	Rear suspension.....	Independent;
Tires.....	110mm diameter x 48mm		double trailing arms with
Weight (ready to run)	3.5kg		coil-over shocks.
Drive System	Transverse engine and chain drive	Radio System.....	2 Channels
		Engine.....	19—21 (3.5cc)

No. 392 TIGER 4WDS

The TIGER is a 1/10 scale electric powered four-wheel drive and four-wheel steering racing buggy that incorporates shaft drive and twin differentials, assuring maximum and efficient distribution of power to all wheels. Four-wheel drive and four-wheel steering makes high speed control easier than two-wheel drive and provides stable off road handling and traction. Differential gears are used in both transmissions to maximize cornering characteristics and general handling. Both front and rear transmissions are scaled to keep out foreign matter and keep transmission gears clean. Twin wishbone suspension is pro-

tected by a coil spring mono shock and oil damper.

Mabuchi RS-540S motor assures high performance running, but motor mounts will accept most of the custom style racing motors for added performance.

ABS resin frame, roll bar and suspension are engineered from tough plastics to assure long life and withstand rugged continuous use.

Polycarbonate body and wing are flexible enough to withstand almost any type of abuse.

Detailed and unusual decal set included.

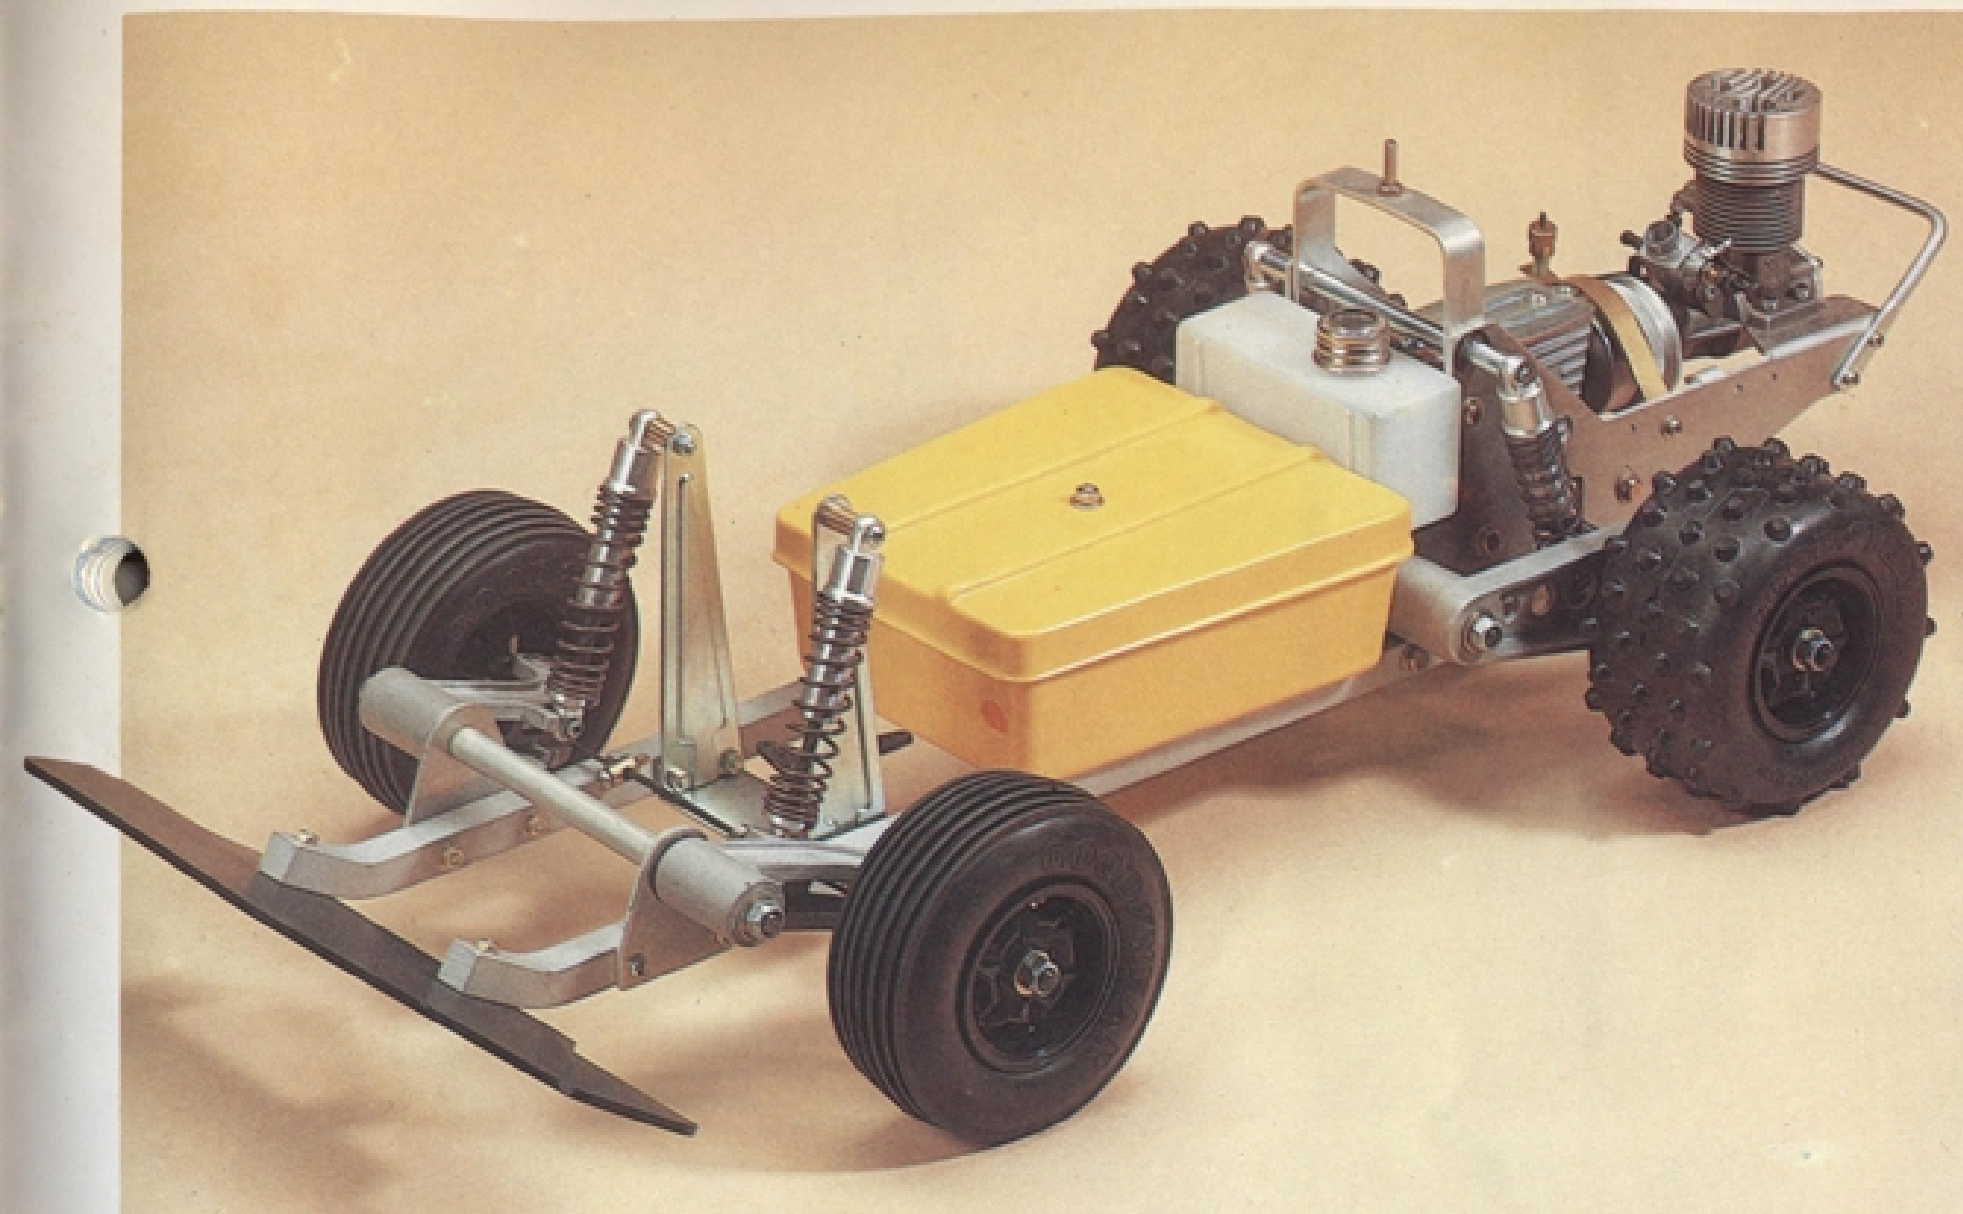

- 黑旋風越野競賽沙灘車
- 無線電操縱
- 使用19-25引擎・2動作操縱器

- BLACK HURRICANE BUGGY
- RADIO CONTROL
- ROUGH ROAD RACER
- FOR 19-25 ENGINE・2 CHANNEL RADIO

- Die cast oil lubricating gear box has three powder metal gears for smooth and sturdy operation.
- Clutch is made of a special plastic material, easy to assemble with simple adjustment.
- Linkage parts are standard to simplify installation.
- Rope or electric starter can be used to start the engine.
- Hubs are made of light, strong plastic material.

Black Hurricane is a completely new buggy from the Thunder Tiger design team..... The kit includes specially designed air-dampened coil suspension springs for rough conditions, and a jumbo reinforced fiberglass front bumper for maximum crash protection. A revolutionary new method in body manufacture and material provides lifetime use, another first from the Thunder Tiger design team. The gear drive was carefully designed and manufactured, and is capable of receiving all the power that modern Schneurle port engines can produce.

ALL NEW TRACK SUSPENSION!
ALL NEW BODY CONSTRUCTION!
ALL NEW GEAR BOX CONSTRUCTION!

- Well-balanced for any kind of racing.
- Precision die cast parts.
- Strong, light construction.
